

TALOYA

Ceiling Fan
with Light

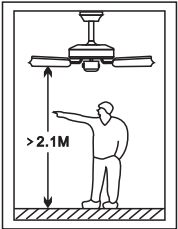

Technical specifications

WARNING

Turn power off before installation, inspection or removal.
Do not touch the light when it is on or hot. In case of any problem with the fan light, turn power off, neither attempt to repair, unless you're a qualified technician.
Do not expose to water or rain.
Ensure that after the fan is installed, its lowest point is no less than 2.1 meters from the ground.

Screw Pack

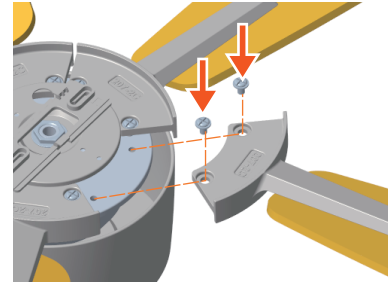

Installation Guide

1

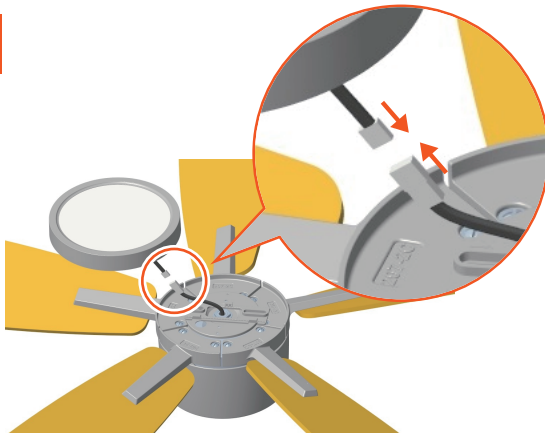

Secure the fan blades to the blade arms using the provided screws.

2

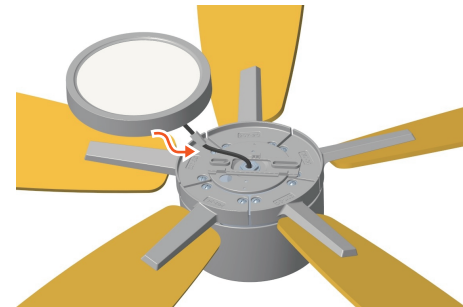

Screw the fan blades with their attached blade arms onto the fan motor.

3

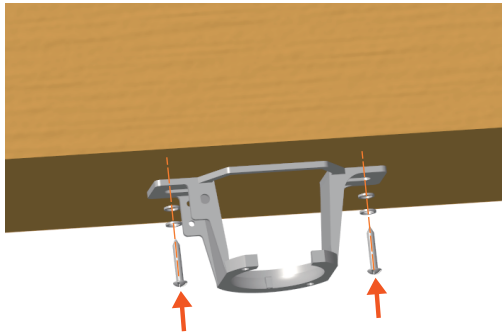

Connect the light's wiring to the appropriate connectors on the fan motor.

4

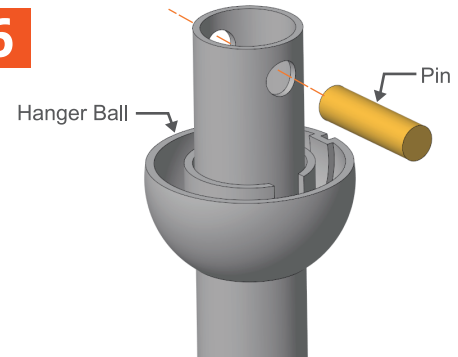

Attach the light fixture to the fan motor and ensure it's secure.

5

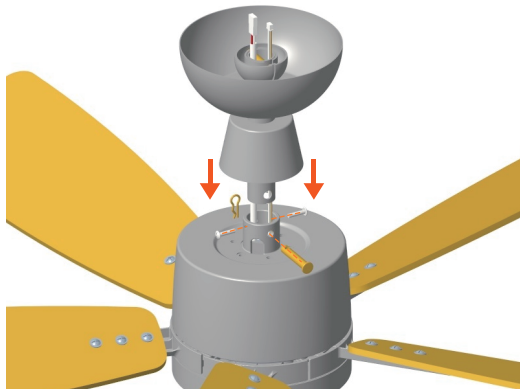

Mount the hanger bracket to the ceiling.

6

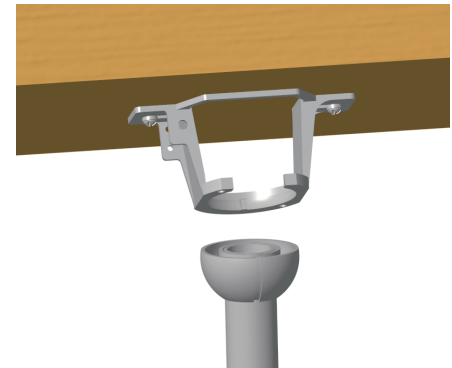

Unscrew and remove the set screw to disassemble the downrod.

7

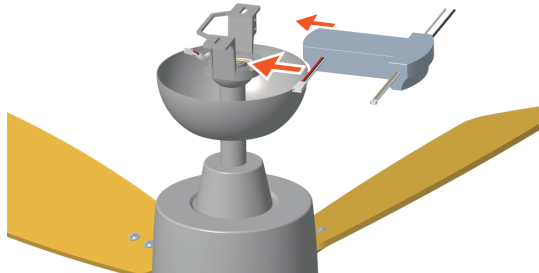

Assemble the downrod and fan motor assembly, then secure them together.

8

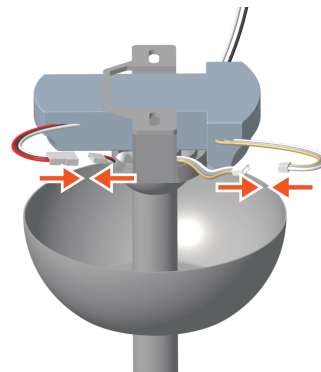

Hang the assembled fan onto the hanger bracket on the ceiling.

9

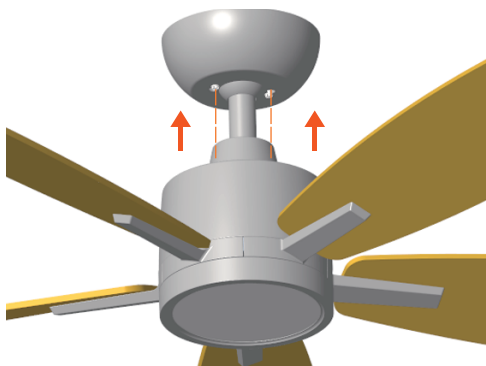

Insert the controller into the gap of the mounting bracket.

10

Interconnect the wires, including the power cord and fan controller cord.

11

Secure the canopy with screws.

After-sales Service

Thank you so much for choosing TALOYA as your preferred brand for your recent purchase and hope they have met or exceeded your expectations. We appreciate your trust in us and are thrilled to have you as a part of our valued customer community.
