# VOLU-SOL

SECTION 1. FRODU	JCT AND COMPANY IDENTIFICAT	ΓΙΟΝ
PRODUCT NAME:	Eosin Y Counterstain	
SYNONYMS:	Eosin Y Solution	
CATALOG CODES:	VEC	
MANUFACTURER:	VEC Volu-Sol	
ADDRESS:	5095 West 2100 South	
ADDRESS.	Salt Lake City, UT 84120	
EMERGENCY PHONE:	(800) 535-5053	
OTHER CALLS:	(801) 974-9474	
FAX:	(801) 974-9553	
CHEMICAL FAMILY:	-	
CHEMICAL FORMULA:	-	
PREPARED BY:	Volu-Sol	
RECOMMENDED USE: Laboratory of	chemical	
RESTRICTIONS ON USE: Use a	s recommended	
SECTION 2:	HAZARD(S) IDENTIFICATION	
EMERGENCY OVERVIEW:		
GHS Classification:	Flammable Liquids	(Category 2)
	Acute Toxicity, Oral	(Category 3)
	Acute Toxicity, Inhalation	(Category 3)
	Acute Toxicity, Dermal	(Category 3)
	Specific target organ toxicity	(Category 1)
	Single Exposure	1. 1. 1. 1. 1. S. 1.
GHS LABEL ELEMENTS:		
Pictogram:		Con Para Contra
Signal Word:	Danger	1.2.37
Hazard Statement(s):	Dunger	
H225	Highly flammable liquid and v	apour
H301+H311+H331	Toxic if swallowed, in contact	
H320	Causes eye irritation	
H370	Causes damage to organs	
Precautionary Statement(s):		
P210	Keep away from heat/spar	ks/open flames/hot
	surfaces. No smoking	1 S
P233	Keep container tightly closed	and the second second
P240	Ground/bond container and re	0 1 1
P241		trical/ ventilating/
	lighting/ equipment	
P242	Use only non-sparking tools	
P243	Take precautionary measu	ires against static
<b>D</b> 2C0	discharge	and mist (
P260	Do not breathe dust/ fume/	gas/ mist/ vapours/
P264	spray Wash skin thoroughly after ha	ndling
P264 P270	Do not eat, drink or smoke wh	
P270 P271	Use only outdoors or in a well	0

HMIS Classification:	
Health hazard:	2
Chronic health hazard:	-
Flammability:	3
Physical hazards:	0
NFPA Rating:	
Health hazard:	2
Fire:	3
Reactivity Hazard:	0

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENT	CAS NO. EC-NO. Index-NO.
	67-56-1
Methanol (70-95%)	200-659-6
	603-001-00-X

SECTION 4	I: FIR	ST AIE	) MEAS	URES

**INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Consult a physician

**INGESTION:** If swallowed, vomiting may occur spontaneously, but DO NOT INDUCE. If vomiting occurs, keep head below hips to prevent aspiration into lungs. Never give anything by mouth to an unconscious person. Take victim immediately to hospital. Rinse mouth with water. Consult a physician

**SKIN:** Immediately flush skin with plenty of soap and water. Remove contaminated clothing and shoes, wash before reuse. Consult a physician

**EYE:** Immediately flush eyes with plenty of water for at least 15 minutes. Consult a physician

SECTION	SECTION 5: FIRE-FIGHTING MEASURES		
FLAMMABLE LIMITS IN AIR:	Percentage by Volume Upper: -% Lower: -%		
FLASH POINT:	13-19 °C		
AUTOIGNITION TEMPERATURE:			
EXTINGUISHING MEDIA: Use wa dioxide	ter spray, alcohol-resistant foam, dry chemical or carbon		
	In the event of a fire, wear full protective clothing and breathing apparatus with full face piece operated in the ve pressure mode		
FIRE AND EXPLOSION HAZARDS	Lise water spray to cool unopened containers		

FIRE AND EXPLOSION HAZARDS: Use water spray to cool unopened containers

## SECTION 6: ACCIDENTAL RELEASE MEASURES

ACCIDENTAL RELEASE MEASURES: Use personal protective equipment. Avoid breathing vapours, mist, or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Dispose of in accordance with local regulations. US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The number to contact the US Coast Guard National Response Center is (800) 424-8802

## SECTION 7: HANDLING AND STORAGE

HANDLING AND STORAGE: Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Use explosion-proof equipment. Keep away from sources of ignition. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Containers of this material may be hazardous when empty since they retain product residues (vapours, liquid); observe all warnings and precautions listed for the product. Take measures to prevent the buildup of electrostatic charge. No smoking

OTHER HAZARDS: -

acid chlorides, acid anhydrides, oxidizing agents, alkali metals, reducing agents, acids

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### EXPOSURE LIMITS:

Reported in a time-weighted average (TWA)

Component	CAS-No.	Reference	0	SHA	AC	GIH
Component CAS-No.	CAS-NO.	Reference	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>
		200	260	200	260	
Methanol	67-56-1		PEL	PEL	TLV	TLV

VENTILATION SYSTEM: Local and/or general exhaust is recommended to keep exposure below limits. Local exhaust ventilation is preferred for control of the emissions at its source, preventing dispersion into the general work area. Please refer to the ACGIH document, *Industrial Ventilation: A Manual of Recommended Practices*, for details

**PERSONAL RESPIRATORS:** If exposure limit is exceeded and engineering controls are not feasible, a half-face organic vapour respirator may be worn for up to ten times the exposure limit, or the maximum use concentration specified by the appropriate regulatory agency or respirator supplier; whichever is lowest. A full-face piece organic vapour respirator may be worn up to 50 times the exposure limit, or the maximum use concentration specified by the appropriate regulatory agency or respirator supplier; whichever is lowest. For emergencies or instances where the exposure levels are not known, use a full-face, positive-pressure, air-supplied respirator. WARNING: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres

**SKIN PROTECTION:** Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Use proper glove removal technique to avoid skin contact with this product. Wash and dry hands **EYE PROTECTION:** Use chemical safety goggles and/or a full face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area
