

Reindeer headgear

Step-1. Cut the all shape from template.

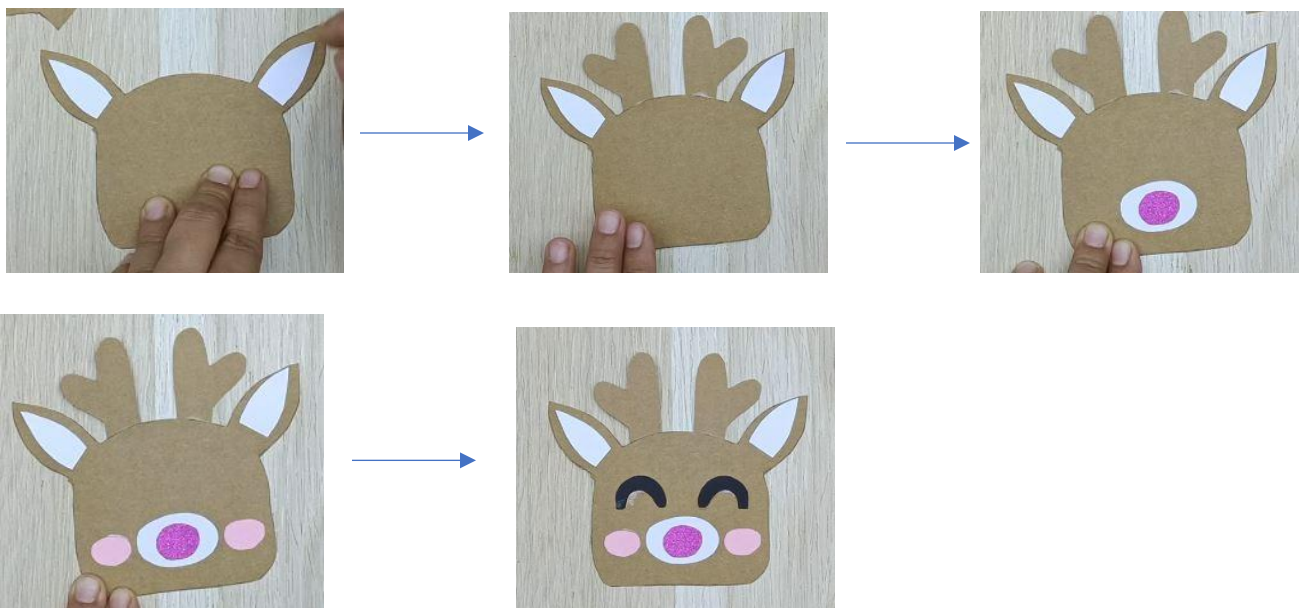

Step-2. Trace all shape as follow and cut them as shown photo.

- Face outline and antler from kraft card, eyes from black card, blush from pink card, ears and mouth from white card, and tongue from pink glitter card and last cut 2 strip from kraft card.

Step-3. Now stick all the part as shown image.

- 1st stick ears, and after stick antlers, then mouth and tongue, then blush and last eyes.

Step-4. Now stick both strip with face in backside like this....

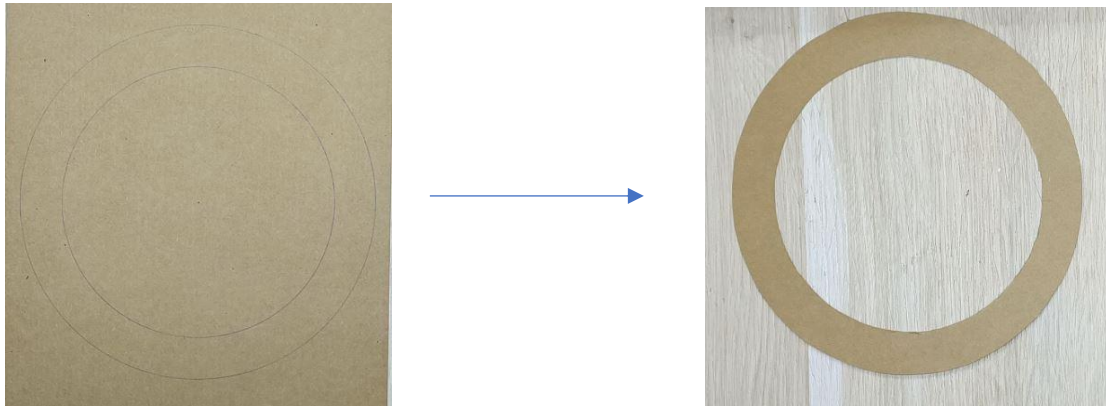

Step-5. Now connect both strip edges. And make headgear.

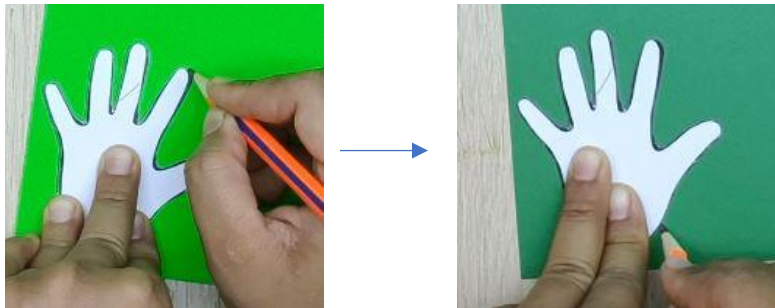

Wreath

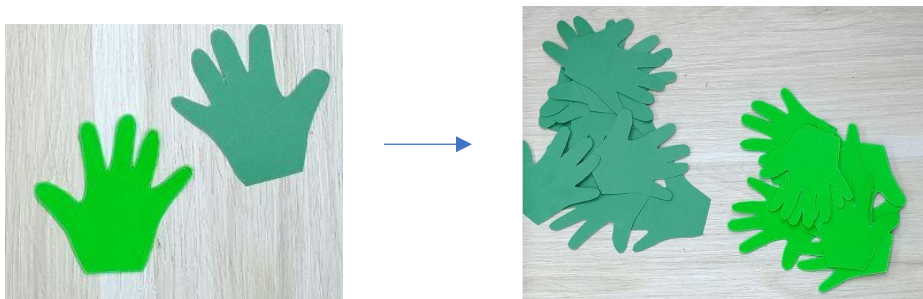

Step-1: take kraft card and draw 20cm diameter, and draw inside other circle is 17cm diameter. And cut this circle like this.

Step-2 Trace your child's hand onto the chipboard to make a template. (This is the hardest part about the whole thing...trying to get your child not to move!) OR you can use our given template from Christmas kit.

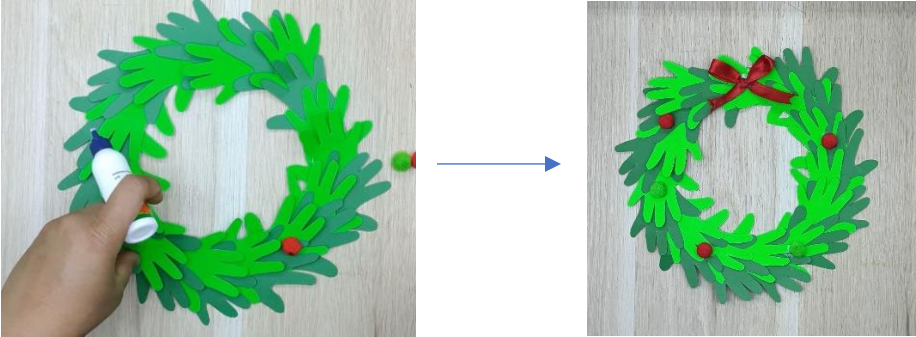

Step-3: Using your hand template, trace and cut out about 20-25 hands out of the remaining- green colored cardstock. I used 21 hands in my pictured finished wreath. I used textured cardstock so when tracing them, I turned the template over a on half of them so the fingers and thumb weren't all facing in the same direction. Again, to give it a bit more variety and life!

Step-4: take cutted circle and I adhered them on with a little liquid glue, having each of them face out or in. Depending on what I thought looked good.

Step-5 At last stick red and green pom-pom and tie ribbon and glue it on.

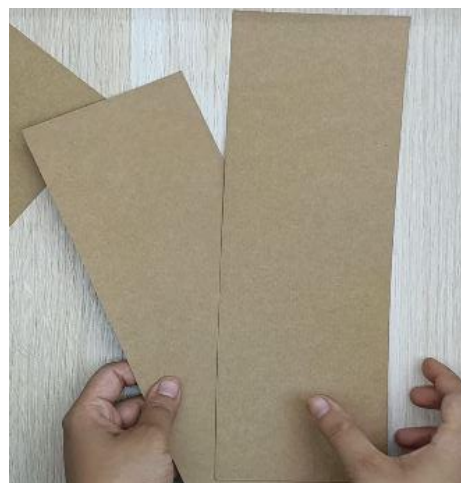

Crib

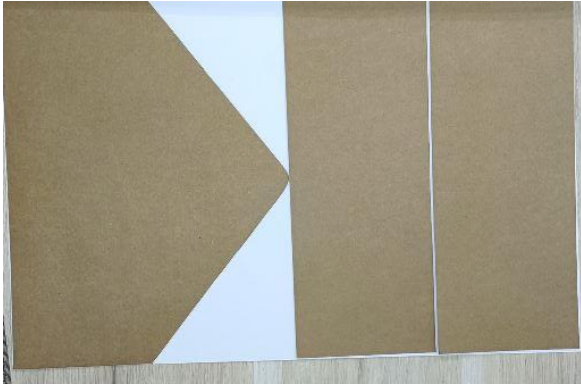

Step-1: Take kraft papers and cut like crib shape. (Height 10cm and cross length middle point of a4 size kraft paper)

Step-2: take another new kraft card and fold them middle and cut as both part is same.

Step-3: take glitter card and trace all three part whos cut from kraft card, cut and paste to glitter card

Step-4: join all three-part using doble side tap, like this.

Step-5: decorate with dry grass.

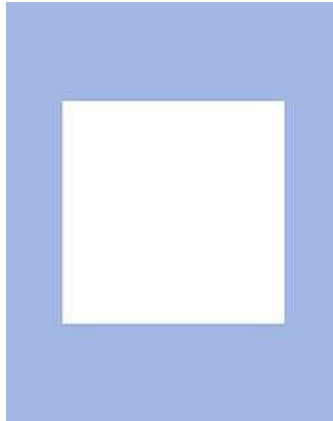

Step-6: Cut all the character from given template, and stick like this. And you can also decoration with led light for look more beautiful

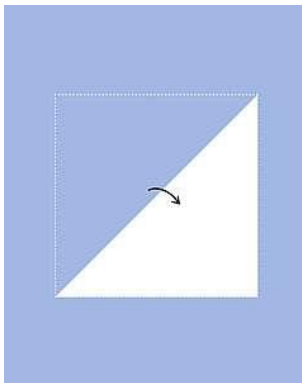

Snowflakes

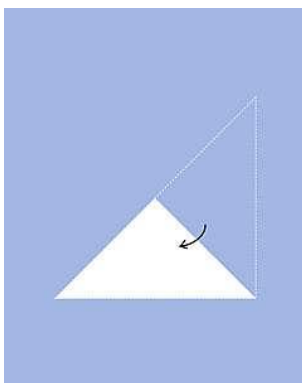

Step-1: Make a paper square. Start out with a square piece of paper, preferably thin or lightweight paper. You can use square origami paper or follow these easy steps for making a square from any rectangular piece of paper.

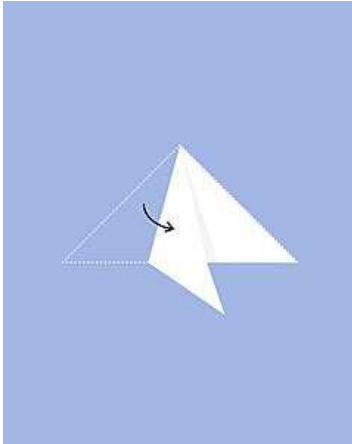

Step-2: Fold the square diagonally in half to come up with a triangle.

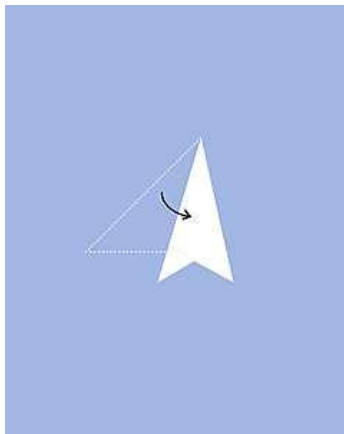

Step-3: Fold the resulting triangle in half to make a smaller triangle.

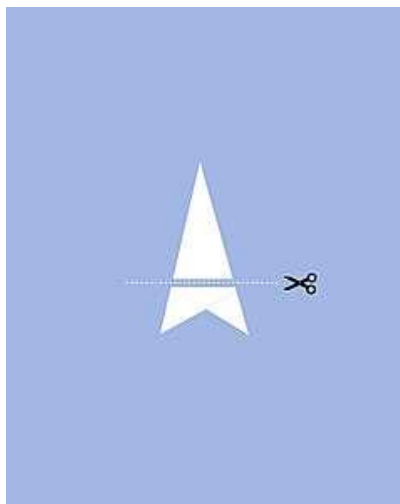

Step-4: Fold paper triangle in thirds, overlapping the lefthand pointed corner over the triangle.

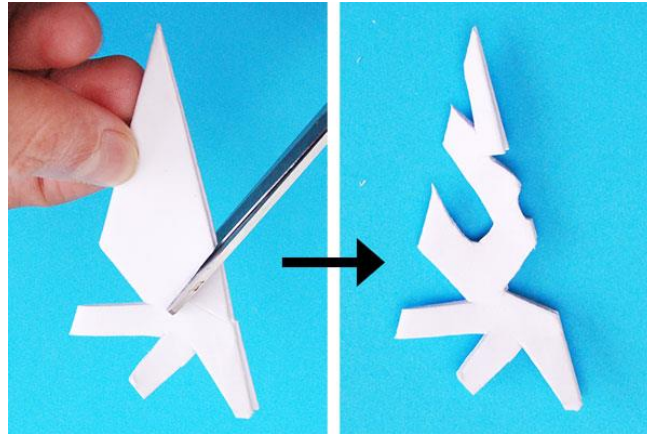

Step-5: Overlap the righthand pointed corner over the triangle. (Note: You may need to adjust these folds a little to get the sides to match up, so don't crease the paper until the folds are just right.)

Step-6: Trim the pointed ends so the paper triangle looks as shown.

Step-7: While keeping the wedge folded, cut out random shapes out of the edges.

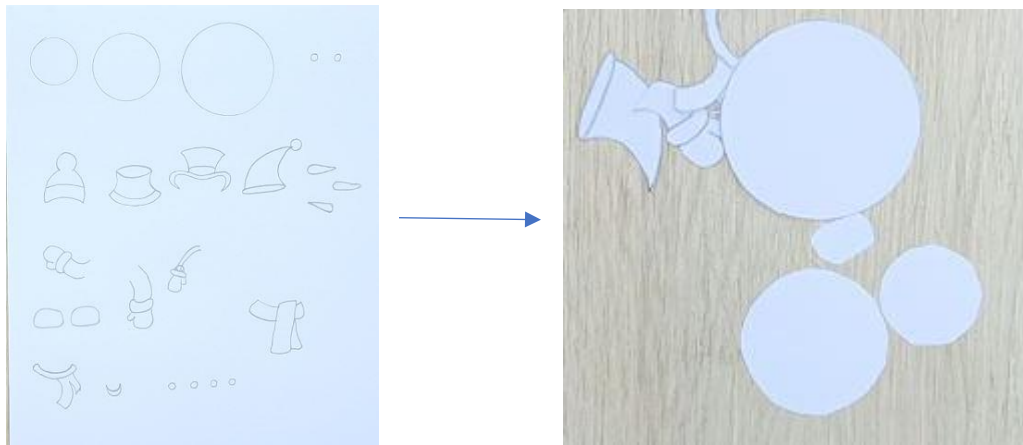

Step-8: Carefully unfold the paper to reveal your paper snowflake. Like real snowflakes, your paper snowflake has a 6-point or six-sided symmetry.

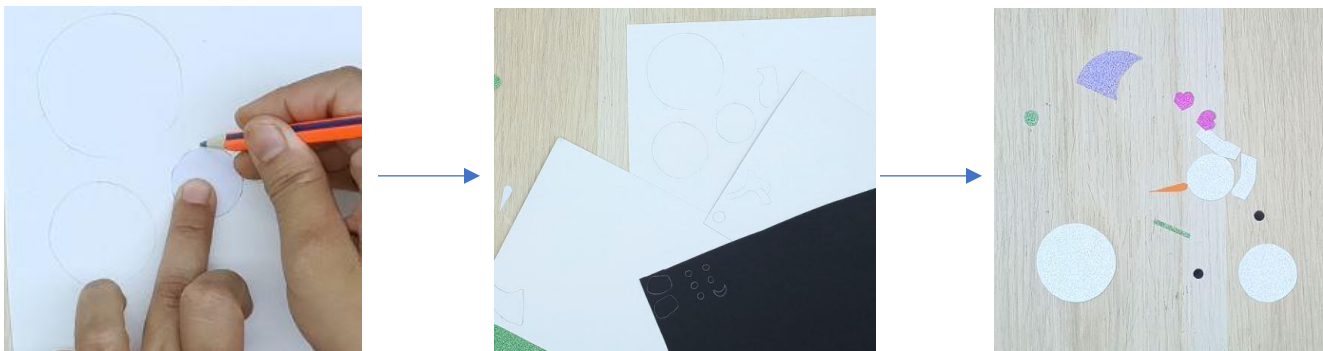

Snowman

Step-1: Cut all the shape as given template.

Step-2: Trace and cut all the shape as your chose glitter card (here we are using silver color as body part and cap, handgloves, shoes, eyes, scarf are using diffrenet color glitter cards)

Step-3: join 3 circles as a body part as shown image.

Step-4: connect cap with head like this.

Step-5: stick eyes and nose.

Step-6: Stick Scaff on neck (you can any design on Scaff...here we use 2 color of glitter card, and give small cuts from edges.)

Step-7: last join hands with decorative hand glows and shoes.

You can also make like this.....
