# Operating Instructions

1

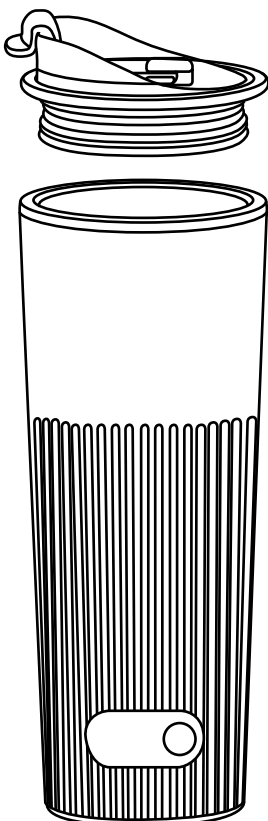

Put the mug on a flat table or surface

2

Pour in hot water / coffee / milk / tea (Please note the Smrt-Mugg Go is designed to keep hot beverages hot, and not to warm up cold beverages).

3

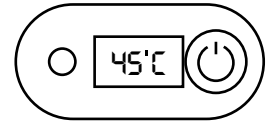

Turn to screw on the Cover

Please do not pour in strong acidic or high salinity liquids such as white vinegar

**1** To Turn On: Hold the power button in for 2 seconds (you will hear a beep). If the white status light is on, the SmrtMugg Go is powered on and/or heating. To power off, hold the power button for 2 seconds. If the white status light is off, the SmrtMugg Go is in sleep mode.

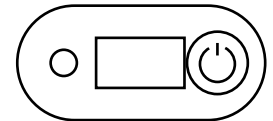

**2** Press the power button once to check temperature of the contents in Celsius, and press again to check the temperature in Fahrenheit

Click the button a third time and the display will show the remaining battery amount. Battery full **≡≡≡** : 50% battery **≡≡** : low level **≡**  
While powered on, if the indicator light starts blinking, the battery is nearly empty. Please plug it in and charge soon. The SmrtMugg Go will power down once the battery is fully depleted.

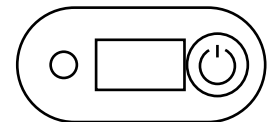

**3** The charging indicator will slowly blink or flash while the battery is charging. Once the light stays on, the battery is fully charged. Please note the SmrtMugg Go is designed to keep hot beverages hot for approx. 90 minutes from a full battery charge. If you pour in a liquid that is colder and needs to be heated up, then the battery will deplete faster.

Charging mode:

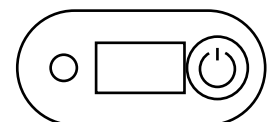

**4** Press the button for 2 seconds to power on, you will hear a beep and the light will stay on. The SmrtMugg Go will heat to 50°C or 122°F.

Heating mode:

**5** You can turn on the heater while charging (if there is enough battery charge to do so). While charging, press the power button for 2 seconds to turn on the mug. Please note charging will slow down while mug is powered on.

Heating while charging:
