

# With Watertown Table Slides, Quality Is An Open And Shut Case.

As far back as 1886, Watertown Table Slides have been the slides of choice for many of America's finest furniture companies.

Things haven't changed much, more than a century later. And for one very good reason.

Quality.

At Watertown Table Slide Company, quality is more than a word we toss around.

It's something we believe in.

You see it, even before we go to work with you. In the way our people deal with yours, to make sure you have just the right design. And if not, we'll design a special slide just right for you.

The quality's there, too, throughout every phase of manufacturing. We use only the highest-grade steel, to build slides that add years to the life of your table. And, we enforce the kind of quality control that ensures us your slides will open oh-so-smoothly. First time, and every time.

We even back this quality up, long after the job's done — with our one-year or lifetime guarantees. Written assurance for both you, and your customers, that Watertown Table Slides will never, ever crack. Bend. Rust. Or warp.

A hundred-plus years have taught us one thing.

Do something right, you can't go wrong.

Maybe that's why we've been doing this for so long, for so many fine furniture people like you.
