

# Gems to treasure

Founded in Hong Kong in 1990 by British designer Tayma Page Allies, Tayma Fine Jewellery specialises in contemporary, hand-made pieces. Now, a new service named 'Gemalista' invites customers to purchase loose stones from Tayma's private vault of exceptional jewels which she has acquired over the last 26 years from exclusive dealers and mines.

Upon selection, clients will receive certificates of authenticity and provenance and can either keep the loose stone or stones as part of a legacy caché or take advantage of a complimentary design service and commission, in consultation with Tayma, hand-drawn or digitally rendered sketches of bespoke pieces. This extraordinary collection comprises approximately 80 outstanding gem types of loose stones in a wide range of cuts and sizes from all over the world. **IP**
