KATIA OBLAK

NORTHERN RIVERS, NSW

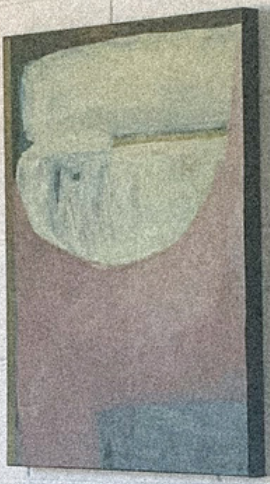

Katia Oblak is an emerging artist based in Bundjalung country. Since a young age, Oblak was drawn to a wide range of artistic paths and found inspiration in the visual arts and design, music, cinema and photography and pursued studies in Communications and Media.

During her early twenties she spent time studying in Paris and later lived in Barcelona—a period in her life which became notable inspiration for her artistically. Her artistic approach is deeply intuitive and subconscious, an outworking of inner emotion and memories of time and place.

The unruly patterns and textures of Oblak's artworks are realised through layering and mark making, building depth and contrast, and creating story. With a raw, free-form aesthetic, Oblak finds herself freely creating emotional abstract paintings, influenced by the gamut of colour found in nature and the footloose rhythms of music she is inspired by.

Oblak's process explores deep inner thoughts and feelings using a 'stream of consciousness' approach—sometimes smooth-flowing and other times forceful bursts of her mind. A method in pursuit of, not a predetermined point of arrival, but a resolve to let the works unfold naturally and reveal themselves throughout the journey of formation.

After years abroad, Oblak now works from her studio on the Northern Rivers in Australia where she creates using a range of mixed media, with a preference towards acrylics and oil pastels on canvas.

JOURNEY TO SELF

EXHIBITION STATEMENT

In this exhibition of works on canvas and paper, artist Katia Oblak delves into the profound concept of self-discovery and growth, drawing parallels between life and nature.

Inspired by the colours and organic beauty of the natural world, this series serves as a reflection of the intricate process of introspection.

Each piece captures the fluidity and stillness inherent in this process, portraying moments of both spaciousness and structure, tightness, and looseness; inviting viewers to embark on their own exploration of identity and inner landscapes.

JOURNEY TO SELF is a reflective exploration, a visual narrative of the transformative journey towards self-awareness and fulfilment.

'WHISPERS OF AWAKENING'

ORIGINAL ARTWORK BY KATIA OBLAK
ACRYLIC AND SOFT PASTEL ON
CANVAS
51CM X 61CM
\$600
