Remove earbuds from ears and put them back in case then close it for disconnection. Earbuds will automatically disconnect when you are more than 10m away from the device. Get in range (10m) of the device to reconnect within 1 minute.

Charging Instruction

If your earbuds arrive with low batteries, It may be due to the long shipping process. But not to worry, First pay attention to the indicators provided. Here's how to interpret them:

Case Flashing

Charging: While charging, the case light indicator will blink to show that the charging process has begun.

If Earbuds Are Not Charging:
You may need to clean the charging contact with gentle touch and reposition them in the charging case to ensure proper contact with the charging pins

Charging Process

Find the USB charging port on your earbuds. This port is typically located on the bottom of case.

Take the provided USB Type-C cable and securely connect one end to a compatible power source, such as a USB wall adapter, computer, or power bank. Insert the other end of the USB Type-C cable into the charging port of your earbuds case. Ensure a firm connection is made to initiate the charging process.
