

THE **HOOF CO**

## HOOF BALM

Can assist to hydrate and protect your horses' hooves, including the coronary band and moisturising skin.

1

### PREPARE THE HOOF

- Clean the hoof wall thoroughly with a hoof brush or cloth, ensuring all debris is removed from any surface cracks.
- Ensure that the hoof is clean and dry before applying the hoof balm.

### HOW AND WHERE TO APPLY

- Be mindful that a little goes a long way so start with a small amount of product.
- Using either clean hands or a soft clean cloth, take a small amount of the Hoof Balm from jar.
- Using the required amount, massage into the coronary band and the entire surface of the hoof wall.

2

3

### WHERE ELSE CAN HOOF BALM BE USED

- Hoof Balm is full of hydrating properties. All natural ingredients are safe for use on horses sole, hoof wall and skin. Also a great hand moisturiser!

### PLEASE NOTE

- If more product is needed, please do not "double dip".
- Once again, ensure clean hands or cloth when removing product from the jar.

4

5

### HOW OFTEN DO I APPLY

- Hoof Balm can be reapplied as often as necessary.
- Apply when hooves are dry or prior to wet weather for moisture repelling properties.
- Regular application will keep hooves hydrated.

*Lube up with our Hoof Balm.*
