

**GOODNIGHT
MY LITTLE
LOVE**

A book by Emma®

This book belongs to

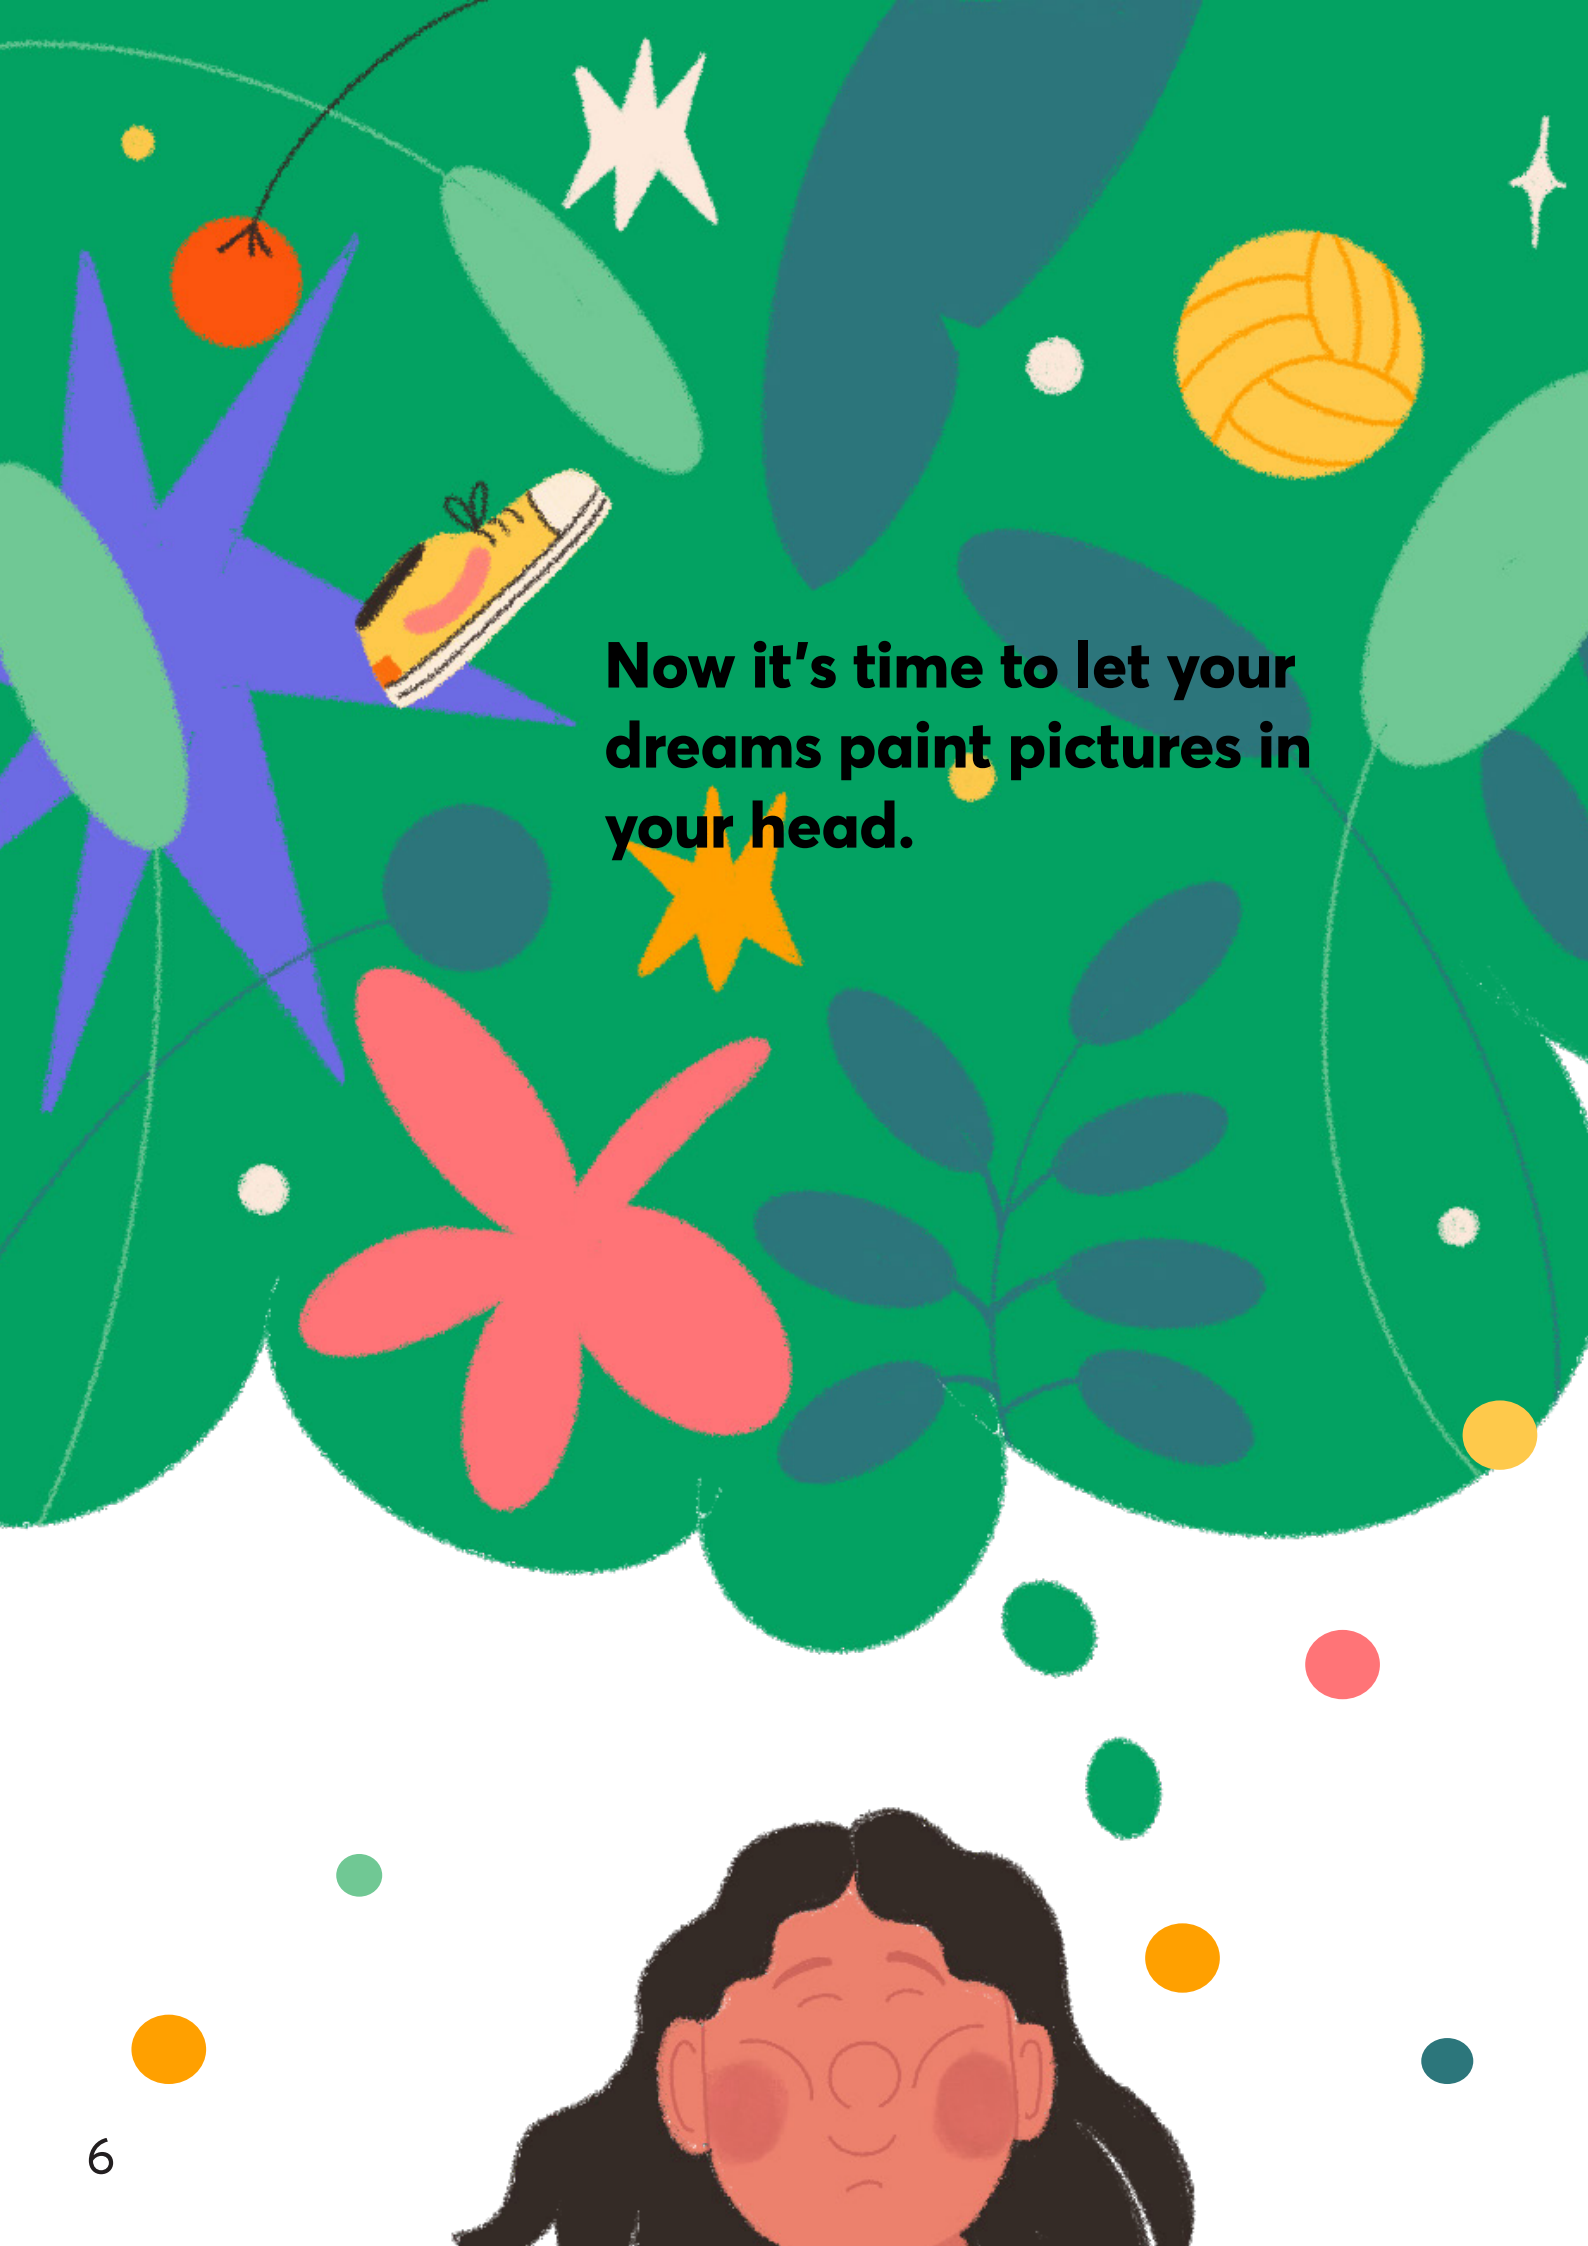

And was narrated by

Hearing a mother's voice is a soothing development aid for young children, whether the voice is recorded or live.

With this book, we hope to give young children their best start in life while nursing the beautiful bond between mother and child.

**Goodnight, my little love.
The sun has gone to bed.**

**Now it's time to let your
dreams paint pictures in
your head.**

**Tomorrow, we can laugh and run and play
and jump and sing.**

But first we need to gain the strength to do these amazing things.

**“But being strong, smart and healthy, doesn't
that come from my food?”**

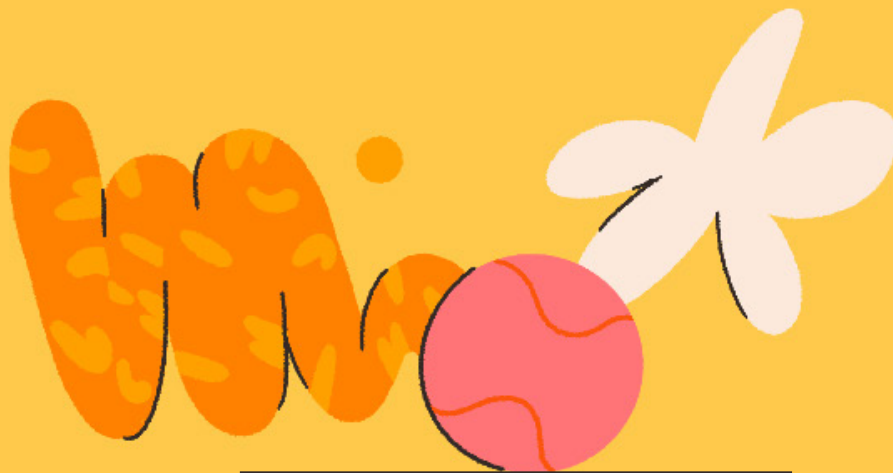

Yes. But that's not all, there's something else that you can do.

**“Is it running as fast as
my legs can go?”**

**Yes. But that's not all, there's something else
that you can do.**

"Aha! I think I know. Could it be learning and playing at school?"

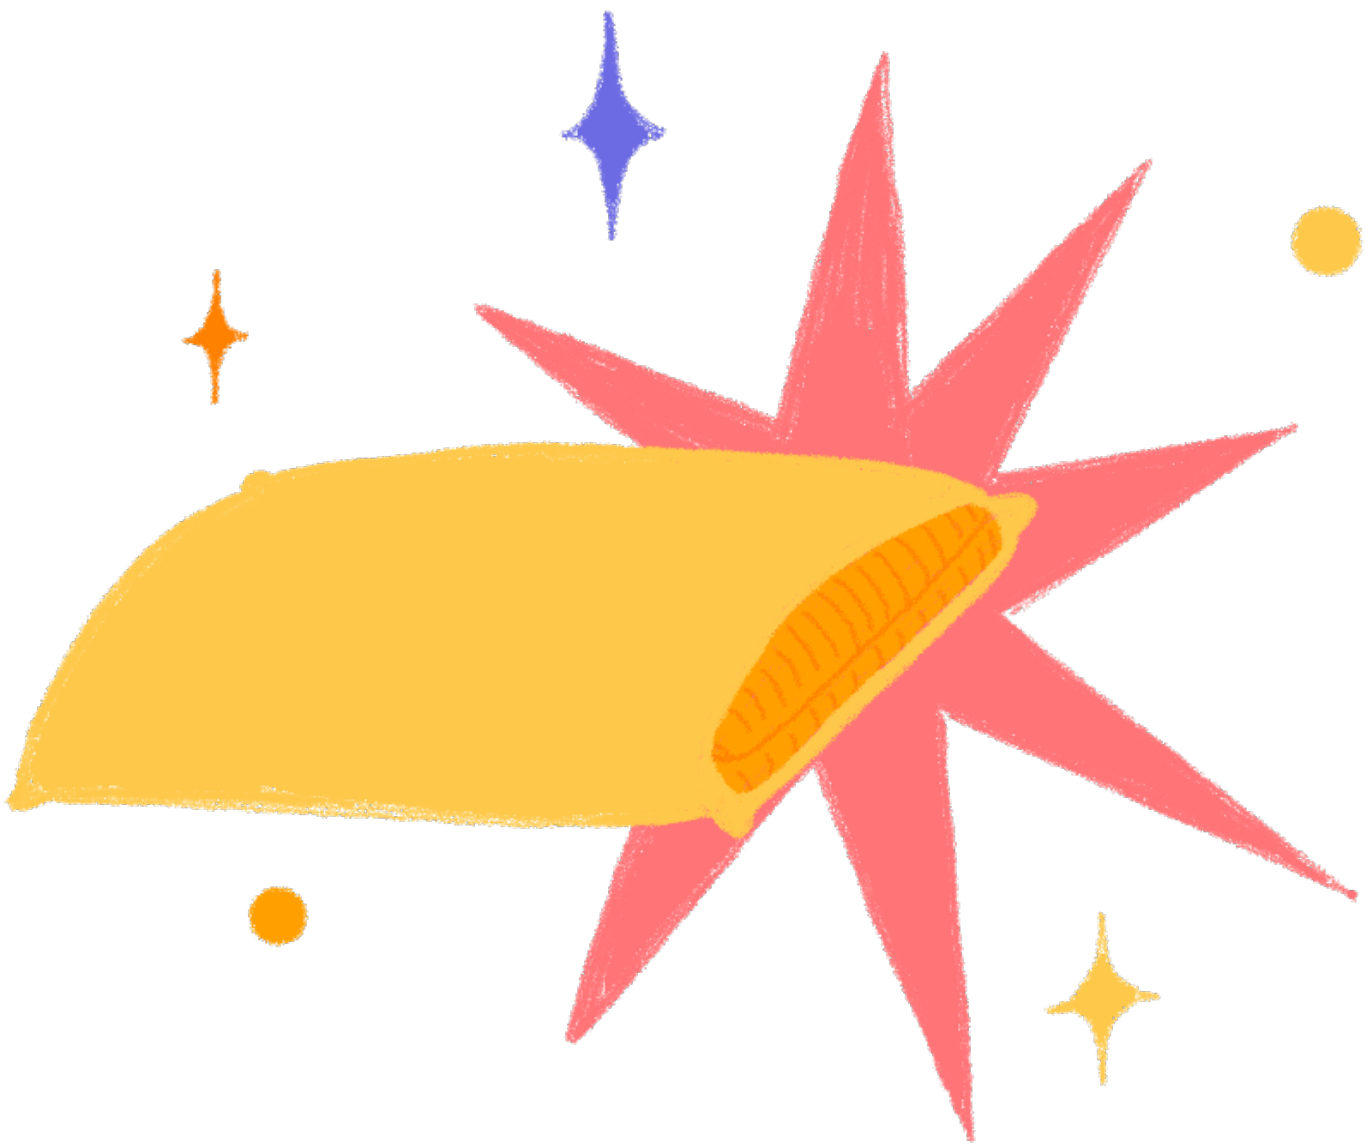

Yes. But that's not all, there's something else that you can do.

**It's a simple thing that makes you strong
and smart and happy too.**

**It's sleep that brings your sparkle back.
Sleep makes a bright new you.**

So, rest your lovely eyes. And while the stars dance in the sky.

**Mommy will be close, you know, I'm always
here nearby.**

**Goodnight, my little love.
Tonight, while sleep brings back your shine.**

**Know that I'll be here to love you until
the end of time.**
