APPLYING THE MINK OIL LEATHER CONDITIONER

1. Clean the target leather surface before applying the mink oil conditioner.
 - For best results, it's best to apply the leather balm as the mink oil acts as a conditioning agent. Let it set and dry.
 - It's also okay if you want to skip applying a leather coloring balm. Just proceed to the next step.
2. Apply the sufficient amount of mink oil to the leather surface. Let it set and dry.

FREQUENTLY ASKED QUESTIONS

How long does it take to dry?

Ideal time is 4 to 6 hours, but please take note that mink oil is made out of a sebum-like material. It will give you an oily moisture on the leather. If you need to totally dry it then it's advisable to wipe off the residual moisture/oil.

What does mink oil do for leather?

Mink oil increases water resistance and darkens leather, creating a deeper, richer color. Applying the mink oil on a regular basis (no more than once every 2 weeks) will ensure that the leather quality stays healthy and thus lives longer.

Is mink oil conditioner good for leather?

Yes, because of its unique quality of palmitoleic acid, the mink oil is used for treating, conditioning, and preserving almost all kinds of leather.

Can the mink oil spoil?

The mink oil has great resistance to spoilage and damage and will not go rancid than most other animal and vegetable oils.

Does mink oil permanently darken leather?

Mink oil is prone to darken the color of the leather and therefore is ideally suited for dark leathertones.

Does mink oil shine leathers?

No, once the mink oil has penetrated the leather, wipe off any excess oil from your

shoe's surface. Once the leather is dry, you can follow up with the leather polish of your choice, or just leave as is. It darkens the leather but it doesn't shine it.

I have another problem.

We are a small family business and we pride ourselves on outstanding customer service. We work so hard to make sure that every restoration is completed to your satisfaction. If you have any problems with your repair kit, please email help@fortivoshop.com and we'll make it right.

I would like to post a product review.

We would love that too! Your review means the world to us. Thank you very much for taking the time. We hope we could make this an excellent experience for you. Go to amazon.com/rfp to post your review.
