Ring sizing is tricky! We created this guide to help but we highly recommend going to a local jeweler and getting sized. Many of our rings are made to be adjustable but some have sizing options required.

If you have any questions please email support@fabulove.co before purchasing.

Cut out the ring sizer and cut a slit on the vertical pink line. Wrap the ruler around the base of the intended finger. Pull the angled end through the slit until the paper fits comfortably around your finger.

We cannot guarantee that ring sizing via paper will be accurate. We highly recommend getting sized by a local jeweler.
