1.

Place the first rail (A) on the desired position on the wall and put the screw (B) into the wall through the top hole. Depends on the wall type, pre-drilling and wall plug (not included) maybe required.

Use the the top hole as an anchor point and level the rail straight then mark the screw hole with a pencil or a sharp tool on the wall.

2.

Finish mounting the first rail by putting the screws (B) into the marked position.
Measure the distances for the second rail (A), then mount the second rail by
repeating the same process on page 1.

40 cm shelf = 38.4 cm
60 cm shelf = 58.4 cm
80 cm shelf = 78.4 cm

3.

To extend the system, repeat the same process on page 4 and 5.
