

# RAM® Form-fit USB-C Dock

## for Siyata SD7 Ultra

### Custom-fit rugged vehicle dock with USB-C

The RAM® Form-Fit USB-C Dock for Siyata SD7 Ultra is a drop-in vehicle dock featuring an integrated USB-C connector for charging. Designed for seamless usability, it provides full access to the device's buttons, rotary knob, and RSM pin connector while docked. Ideal for mobile professionals, it pairs effortlessly with RAM®'s extensive lineup of double ball mounts for flexible installation in any vehicle. For users who don't require charging, a non-powered version is also available—perfect for simple, hands-free operation.

#### Compatible Devices:

SD7 Ultra

#### Supports Third-Party RSM

Dock's unobstructed pin connector access allows seamless integration with an SD7 Ultra compatible RSM.

#### USB-C and Passive Options

Choose between the dock with a built-in USB-C connector or the non-powered passive cradle (RAM-HOL-SYT2U).

#### One-handed Docking

Drop-in style dock form-fit to the SD7 Ultra enables a smooth one-handed docking experience.

#### Adjustable

RAM® double ball and socket mounts make adjusting the docked device quick and easy—just turn the knob to set the perfect viewing angle.

#### Warranty:

3-years for electronic components; Lifetime for RAM® mounting components
