APP CONTROL INSTRUCTIONS

The app is available for both the RGB and RGBWW versions. The 3000K warm version does not include an app.

Download the Tuya Smart app or the Smart Life app.

Scan to download
Tuya Smart app

Scan to download
Smart Life app

Scan the QR code to download the app. It is compatible with iOS 7.0 or above and Android 4.3 or above, as well as Bluetooth 4.0 or higher.

After downloading the app, follow the instructions below:

Ensure that your mobile phone's Bluetooth is turned on and available.

Search for the Smart Life or Tuya Smart app on your app store, or scan the QR code to download and install the app.

Register or log in to your TUYA account (follow the app instructions for guidance).

Turn on the light and check if it rapidly blinks. If it doesn't blink, toggle the light on and off (repeat 5 times) until it rapidly blinks. If that doesn't work, unplug and plug in the lamp, then search for and connect the light.

Open the app, tap the plus sign (+) in the upper right corner, or tap 'Add Device,' wait for the app to search, and then connect the light.

After a successful connection, tap the connected bulb in the app to access the control interface. Here, you can turn the light on and off, adjust brightness and light color. Additionally, scene modes and music rhythm settings are available.
