

OZARKÉ

INSTRUCTION MANUAL

OZARKÉ

Thank you for shopping with Ozarké, we really appreciate your business. Our goal is to provide an excellent customer service before, during and after delivery. We've included a guide on how to install this light, should you require additional assistance please feel free to email us at info@ozarke.com and one of our customer service reps will reach out to assist you.

Before you get started:

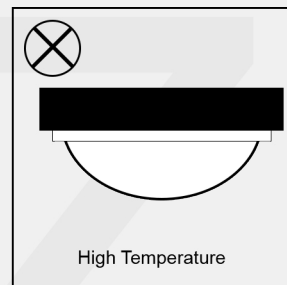

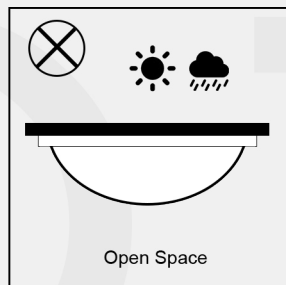

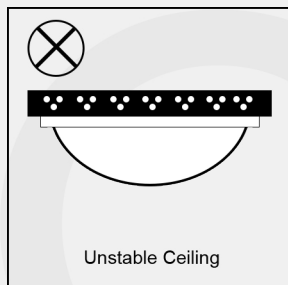

When working with electrical wiring, follow these safety instructions to prevent injury or damage:

1. Turn off the power: Before starting any work, turn off the power to the area you will be working in.
2. Use appropriate tools: Only use tools designed for electrical work and in good condition.
3. Wear protective gear: Wear safety glasses, gloves, and other protective gear as necessary.
4. Test for power: Use a non-contact voltage tester to check for electrical current before touching any wires.
5. Avoid wet conditions: Do not work with electrical wiring in wet or damp conditions.
6. Keep a safe distance: Stay away from exposed wires or electrical components.
7. Seek professional help: Consult a qualified electrician if you are unsure about any aspect of electrical wiring or encounter any problems

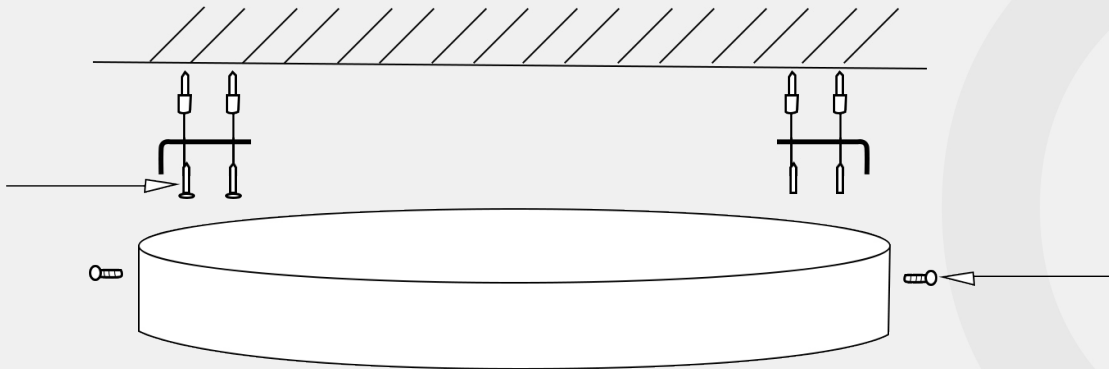

WARNING!

1. The power supply used should not exceed the specified range (rated voltage AC100-220 \pm 10%, frequency 50HZ).
2. Prolonged usage beyond the rated voltage range can lead to overheating and damage to the lamp.
3. To avoid unnecessary losses or safety accidents, such as user leakage, do not install the lamp on an unstable ceiling or in an outdoor area.
4. Do not install the lamp above high-temperature objects or in damp places to avoid damaging the lighting fixture and causing abnormal conditions during use.
5. Do not use in parallel with the dimmer.

Installation Instructions

1. Open the packaging and remove the necessary accessories for the lamp. Carefully read the installation manual before proceeding with the installation.
2. Secure the hanging plate to the wall using installation screws to ensure its firmness and safety.
3. Align the hole on the lamp body with the hanging plate. Make sure the hanging plate is positioned at the bottom. Tighten the lamp to the hanging plate using the provided screws. Then, connect the power and attempt to turn on the light.

The light source of the lamp is a non-user replaceable light source. The light source of this lamp should be replaced by someone with similar qualifications from the manufacturer or its service agent.
