

PROFESSIONAL HORSE PASTURE MIXTURE

- Excellent palatability
- Fast regrowth
- Superior stand persistence
- Excellent drought tolerance and winterhardiness

High quality pastures can provide much of the feed needed by horses while providing a natural and healthy environment for exercise and rest. Farm Science Genetics Professional Horse Pasture Mixture is a forage mix specially formulated to meet the nutritional needs of horses.

Proprietary Mix Ingredients

Orchardgrass 35%

- Increased stand persistence
- Ideal for hay or pasture
- Excellent seedling vigor
- Great palatability

Forage-type Kentucky bluegrass 25%

- Tolerates close and frequent grazing
- High nutritional value
- Persistent
- Winterhardy

Timothy 15%

- Early maturity
- Great palatability
- Improved summer regrowth
- Excellent spring vigor
- Superior leafiness
- Very winterhardy

Perennial Ryegrass 10%

- Very palatable
- Good digestibility
- Easy establishment
- Handles intensive grazing

Intermediate Ryegrass 10%

- Fast establishment
- Vigorous regrowth
- Drought tolerance
- Highly nutritious

Ladino White Clover (34% Coated) 5%

- High-quality feed
- Large leaf clover
- Persistent: survives intense grazing pressure

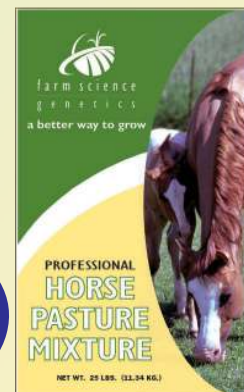

Planting specifications

Seeding rates	25 pounds per acre - new seedings 15 pounds per acre - overseeding
