

QUICK START GUIDE

QUICK TIPS

- Keep at least 8 liters (2 gallons) or approximately 8 kilos (18 pounds) of cat litter in the tray (about one inch below the edge of the liner).
- Use 2 trash bags together for better odor control. Change the bag at least once a week, or every 2 to 3 days in summer.
- In the Popur App, turn on Curious Cat function for kittens, and keep the firmware updated.
