COIL +
DRIFT

Perfect over a table or bar, the medium Foundry pendant consists of a 1 inch diameter stem that reaches downward out of the ceiling with a wide but shallow shade growing out of it. The thick-walled shade is made at a local Catskills forge using the ancient art of sand casting and is available in manganese bronze, cast iron, or aluminum. The dimmable LED light source lives inside a 3 inch frosted glass orb.

DIMENSIONS

16.5" dia x 3.5" H
