PASSAGE Mirror

coilanddrift.com studio@coilanddrift.com @coilanddrift COIL+DRIFT

This is dramatic and bold mirror is intended to be used either as a focal point in front of a wall or window or as a sculptural room divider. Suspended from the ceiling by brushed-brass rods, it is made of one-way mirror - one side offers a slightly dark-hued mirror and the other side appears to be grey-tinted glass. The mirror attaches to the ceiling with a rectangular brushed-brass plate that can either be covered by plaster or exposed

DIMENSIONS

48" dia (rod height to order)
