COIL +
DRIFT

The largest and most bold of the Foundry family, the large pendant consists of a large stem that reaches downward out of the ceiling with a large trumpet flower-like shade growing out of it. The thick-walled shade is made at a local Catskills forge using the ancient art of sand casting. The large Foundry Pendant weighs 70 lbs when cast in bronze or cast iron. Joist bracing and a heavy duty junction box are recommended.

DIMENSIONS

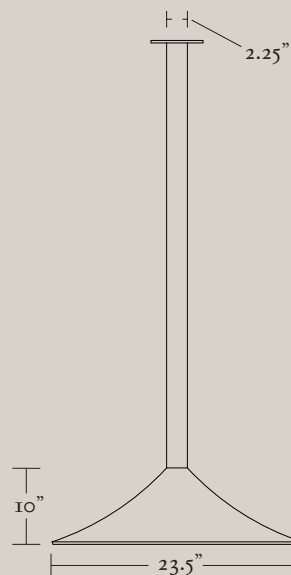

23.5" dia x 10" H
