COIL +  
DRIFT

The smallest of the Foundry family, the small pendant consists of a .5 inch diameter stem that reaches downward out of the ceiling and seamlessly connects to a trumpet-like shade. The thick-walled shade is made at a local Catskills forge using the ancient art of sand casting and is available in manganese bronze, cast iron, or aluminum. The dimmable LED light source lives inside a 2 inch frosted glass orb.

## DIMENSIONS

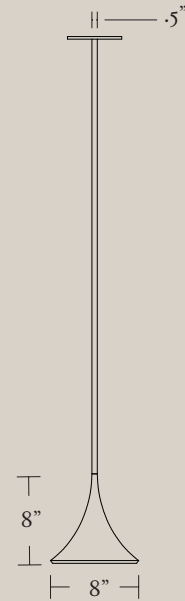

8" dia x 8" H
