History of CHOLISTAN

The meaning of Cholistan is Land of the Desert because the word "CHOL" has been derived from Turkish language which means desert. The culture of **Cholistan** desert is so different and beautiful that it stands out completely. Men wear bright colored turbans and the women wear bright colored clothes with very discreet embroidery which is basically the specialty of this area.

Story of "Hussn-e-Javedaan"

In the essence of Cholistan's natural beauty, introducing ladies eastern wear collection "**Hussn-e-Javedaan**" The Perfect Blend of Traditional Eastern Wear and Cholistan's Natural Beauty. At "**Hussn-e-Javedaan**" we believe that fashion is not just about following the latest trends, but it's about celebrating one's cultural heritage while embracing the beauty of nature. Our collection is an ode to the vibrant culture and rich traditions of Cholistan, where each piece is designed with attention to detail, quality, and comfort.

A woman with her hair in a high ponytail with a gold braided band, wearing a teal suit with intricate floral embroidery in red, yellow, and white. She is also wearing a brown dupatta. She is holding a small object in her right hand and looking down. The background is a rocky, desert-like landscape under bright sunlight.

OUR THOUGHTS

Life is an eternal journey in search of beauty that has no beginning and no end. Beauty is what you feel inside & our collection is not only about the clothes but the entire experience. We have made sure that each outfit is paired with the perfect accessories, including jewelry & shoes to complete the look.

Cholistan **DESERT**

The biggest source of income is only cattle breeding and its related businesses. The demand of milk, butter and animal fats is met from this source. Around 1.6 million cattle are found in the area and they can be easily increased to a great level if only the government puts in special efforts to upgrade the productivity of this area. In the winters as animals are less in numbers and the weather becomes harsh, they switch to various artistic crafts such as cloth weaving, pottery and leatherwork. Pottery industry is thriving here due to its rich soil and different products like pitchers, Surahies, glasses and pigalas.

Two young girls are standing side-by-side, holding hands and smiling at the camera. The girl on the left has long dark hair and is wearing a light yellow dress with a pattern of blue leaves and orange and yellow flowers. The girl on the right has her hair pulled back and is wearing a white dress with a pattern of colorful triangles. They are both looking towards the camera with bright, happy expressions.
