# 4 

Place the ring that fits your intended recipient
on top of the circles.

2

Make sure that the inside of the ring lines up with the
outside of the circle.

If your result is between sizes, you
can choose
the larger size.

Get a string or use a simple strip of paper (around 6" long).

Make a mark on the point where you see that it overlaps.

Place the string or paper on the lines to discover your ring size.

Wrap the string or strip around the base of your finger.

If your result is between sizes, you can choose the larger size.

Print this page at $100 \%$ scale to make sure the measure is correct.

To ensure the page is printed at $100 \%$ scale, compare the ruler on the page with a real ruler to confirm they match..

2

Carefully, cut out the ring sizer finder.
Make a slot in the ring size finder by cutting along the dotted line.

3

Pass the tip of the pointer through the slot.
Place the ring sizer finder around your finger
Pull the pointed end slightly so that it fits comfortably on your finger.

Your approximated ring size should be number closest to the opening.
