

SETTING UP SPLIT WHEEL

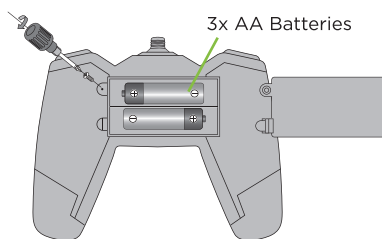

1. Turn off the power switch.
2. Use a phillips screwdriver to open the battery cover.
3. Connect the battery wire to the Split Wheel's connector as shown on the diagram.
4. Close the battery compartment, reinstall the screw, and switch the power switch to On.

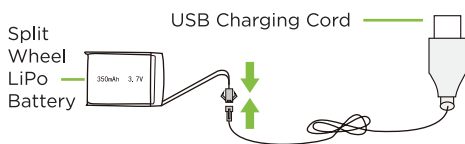

SETTING UP THE REMOTE CONTROL

1. Use a phillips screwdriver to open the battery cover.
2. Install 2x new AA batteries taking care to match the correct polarity (+/-).
3. Close the cover and reinstall the screw.

CHARGING THE SPLIT WHEEL'S BATTERY

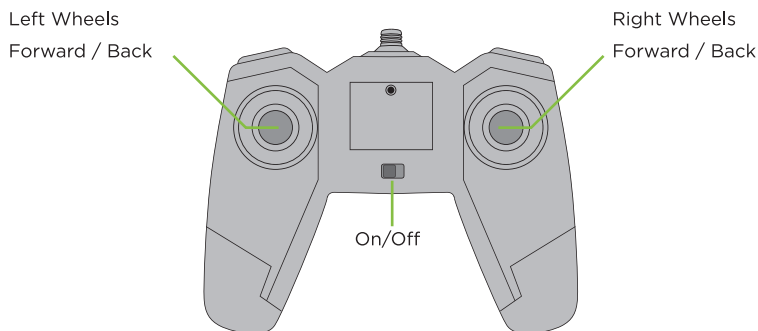

1. Remove the battery from the Split Wheel as shown in the Split Wheel setting up instructions.
 2. Connect the battery to the USB charging cord connector.
 3. Plug the USB cord into a 5v1a USB charger.
 4. The charger light will turn on to indicate charging. When the charger light goes out charging is complete and you can reinstall the battery.
- ★Tip. Full charge takes approx. 1hr

OPERATING SPLIT WHEEL

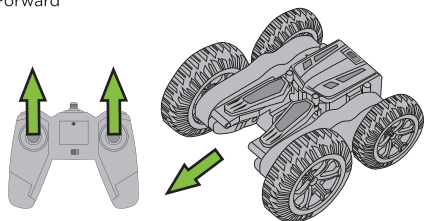

- For best results the Split Wheel needs to be within a 15' foot range of the controller.
