The WHERE Guide – Shopping

By Leigh Harrington

the where guide

Looking Lively

While the decadent cupcake-inspired bath bombs piled in the storefront window might bring you in the door of **Arianna Skin Care**, it is the collections of Dead Sea mineral-rich creams, cleansers and serums that keep you coming back. This is the third Arianna boutique, but the first for Boston, with other locations in Martha's Vineyard and Newport. Arianna caters to its well-heeled clientele with its Elite Collection and its Spa Collection, all-natural, organic beauty products for face and body that are dermatologist developed and made in Israel. In-store, service is top-notch; you're invited to sample treatments like the Ultra Exfoliating salt crystals that buff dead cells from hands and turn them silky smooth. During a month where you may be canoodling with a sweetheart, this can be pretty, well, handy. —MK
