

How to **install** your GrufeKit

Thank you for choosing our all-in-one GrufeKit. You should now have everything that you need to install a beautiful green roof. Ready to get started? Well, here's what to do:

- 1** Ensure your waterproofing is complete and water tight
 - 2** Lay protection fleece over the whole area
 - 3** Install GrufeGuard on the edges of the roof (if required)
 - 4** Clip together the GrufeTiles over the roof area
 - 5** Trim protection fleece and cut GrufeTile's to size as required
-  Take a photo of the finished roof and share it @grufekit
