Why INNOVO Was Created

"I wanted to find a way to help women strengthen their pelvic floor in an efficient, effective and discreet way, freeing them from the embarrassment and discomfort associated with bladder leaks.

Nearly **50% of women are unable to contract their pelvic floor muscles properly.** Because you can't see the muscle, you don't know whether you are doing the exercises (or Kegels) correctly."

INNOVO takes the guesswork out of doing those contractions. It does them for you from the comfort of your own home and eliminates bladder leaks for good. You can say goodbye to pads and liners because INNOVO treats the root cause of bladder leaks.
