## RING SIZE GUIDE

Before measuring your ring size, make sure this is printed on an A4 piece of paper and scaled to 100%. You can check the accuracy of your print by placing your bank card on the line below.

### OPTION 1: MEASURE BY MATCHING YOUR RING

To find your ring size, use an existing ring that fits you well. Match the inside of that one of the circles below. When your ring has been placed on the right size, you should see only the white circle - with no coloured space - inside your ring. If your ideal fit falls between two sizes, we recommend choosing the larger size.

### OPTION 2: MEASURE WITH THE RULER

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end enough through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily.

Sizing availability is specific to each product, though some larger rings can be sized down. Ring size may also vary slightly depending on style of the ring.
