

TOMATO PLANT VARIETIES:

Amelia*-- Chuck recommended high yield on compact plant. Large fruit, disease resistant.
Beefmaster--80 days. Meaty, large, flat shaped fruit. Cracks.
Beefsteak--Heirloom with meaty flavor. Cracks.
Better Boy--80 days. Tolerates clay soils!
Beefy Boy--Huge fruits bred for flavor.
Bella Rosa*--High yield, lg. fruit, heat tolerant. KSU recommends
BHN 589*--Chuck recommended Medseason w/ great flavor!
Big Sfer--70 days. Improved "beefsteak" type! AAS Winner
Big Boy--78 days. A favorite old Burpee variety. Cracks a lot.
Brandy Boy--An improved "Brandywine"-like hybrid!
Brandywine--Old Amish heirloom, great taste, low yield.
Champion--Bred for sandwiches?! Heavy yields. Excellent.
Cherokee Purple--odd color, but one of the best heirlooms
Celebrity*--70 days. Heavy foliage, disease resistance, and uniform, firm fruit. Highly recommended by K-State and us.
Crista*--Chuck recommended. Disease resistant, large fruit, compact vine.
Early Girl--54 days! Good crack and disease resistance, but small fruit. Bears all season. (Also available in a bush variety)
Fabulous*--Chuck recommended 77 days 8-12 oz. fruit
Fourth of July--49 days. Extremely early Hi-yield 4 oz. fruit
Florida 91*--Chuck recommended. Compact plants produce high yield of large tomatoes. Able to set fruit in heat.
Grandma's Pick--KSU recommended modern "heirloom" type.
German--heirloom, low yield with great flavor
Goliath--Large red fruits with great flavor.
Heartland--Compact plants w/ good fruit for growing in pots.
Husky Red*--Improved Patio type for container growing.
Jet Star--72 days. Our favorite main season variety, top performer in KSU trials for years. Heavy yield of medium to large fruit with no cracks. VF disease resistant.
Jetsetter--High yield similar to Jet Star.
Mortgage Lifter--Heirloom meaty variety 75-80 days.
Mountain Fresh*--80 days. 10 oz. fruit. Good for commercial growing. Medium size vines. Large fruit. KSU recommended
Mountain Glory*--Chuck recommended midseason from NCSU
Mountain Merit*--Disease resistant 75 days maturity 8 oz. fruit
Mountain Spring*--70 days. KSU recommended. Resistant to cracking and blossom end rot. 3 1/2" fruit!
Park's Whopper--9-12 oz. fruits with great crack resistnace.
Patio Prize*--sturdy plants for containers, fair fruit.
Pineapple--Great tasting oddly colored heirloom. Lg. fruit. Meaty
Scarlet Red*--Chuck recommended med. Maturity 10-13 oz.
Supersteak--80 days. Unbelievably huge, but hardly worth it because of loss from large cracks. Tastes great!

BELL PEPPER PLANTS:

Admiral--Large yellow KSU recommended variety.
Bell Boy--70 days. We recommend this blocky 4 lobed early-main season green pepper maturing to red if left on the plant. KSU recommended.
Big Bertha--70 days Giant green peppers mature red
Cal Wonder--73 days. A favorite green pepper maturing to red late in the summer.
Chocolate Beauty--Dark skinned sweet bell pepper.
Giant Marconi--72 days Improved "grilling type" 6-8" long
Golden Bell--Rich golden pepper.
Gypsy--3 lobed gold pepper maturing red. KSU recommended.
Jingle Bells--Unique miniature 1 1/2" peppers perfect for snacks. KSU recommended.
Jupiter--Large thick walled four lobed green bell maturing red. KSU recommended.
Keystone--A huge, but later 4 lobed blocky green bell pepper maturing to red late in the season. KSU recommended.
King Arthur--59 days. Remarkably large, matures red. KSU recommended.
Lady Bell--Med.-early 3 lobed green bell pepper maturing to red in late summer. Recommended. KSU recommended.
Paprika--Hungarian red pepper.
Purple Beauty--Matures dark purple.
Red Beauty--early maturing red bell peppers.
Revolution--KSU recommended matures red.
Super Heavyweight--extremely large green matures yellow
Yummy Orange--Sweet mini-bells like you find in the store!

NOVELTY TOMATOES:**Yellow, or Pink Tomatoes**

Carolina Gold*--Yellow fruit, smaller vine KSU recommended
Golden Boy--Yellow slicing tomato. Low in acid.
Green Zebra--Striped green/dark green small, tasty heirloom.
Jubilee-----Yellow slicing tomato. Low in acid.
Lemon Boy--Small fruited great tasing yellow variety from Burpee.
Mr. Stripecy--Heirloom variety with red and yellow stripes.
Pink Girl-----Low acid slicing tomato.

Roma Tomatoes:

Amish Paste--Large size roma fruit on an indeterminate plant.
Health Kick--Firm, roma type bread to have 50% more lycopene (an antioxidant) than other tomatoes.
Italian Gold*--low acid roma tomato.

Roma*--76 days maturity. Pear shape fruit is great for canning.

Super Marzano-- Our favorite roma because it bears large romas all season long on a large plant.

Viva Italia*--Disease resistant roma tomato.

Cherry or Small Tomatoes:

Black Cherry--Blackish purple skin on a cherry tomato

Juliet*--1999 All Amerca Selection Winner. Grape shaped, 2 oz. fruit.

Husky Cherry--stocky compact plant for containers!

Large Red Cherry--Big plants positively loaded with LOTS of big cherry tomatoes all summer long!

Red Grape--small grape tomatoes like in the grocer's.

Sunsugar--yellow cherry with sweet flavor. 62 days maturity.

Sungold--sweet orange cherry w/ sweet flavor.

Super Sweet 100--High yield cherry tomatoes that grow in strands or clusters. Good flavor, too.

Sweet Million--high yield, disease resistant cherry!

Sweet Baby Girl*--Tasty small cherry fruit on compact plants.

Tiny Tim--tiny tomatoes on a tiny plant for smaller containers

Yellow Pear--cherry sized, little yellow pear shaped tomatoes. Popular in many yuppie gourmet recipes.

NOVELTY PEPPERS:

Anaheim--Long green chiles that mature to red in fall. These are the ones to make chile rellenos with.

Ancho--Also called Pablano or Mulato Isano. Mildly hot.

Banana, Sweet--mild long yellow sweet peppers, often used in pickles.

Biggie Chile--Mildly hot 9" chiles. Disease resistant.

Big Guy--Huge jalapeno!

Caribbean--Twice as hot as a Habanero?! 1 1/2" wrinkled fruit.

Cayenne--Lots of skinny little fingers of fire hot green peppers maturing to red. Used as dried peppers to sprinkle on pizza, or sued fresh in canning or salsas to turn on the heat!

Cherry, Hot--Round hot peppers like at the salad bar!

Cherry, Sweet--Round fruits 1 to 1 1/2" diameter

Fajita Bell--bell pepper with a little heat and the best flavor for fajitas!

Garden Salsa--8" chilis mature red in 85 days.

Ghost--Hottest of all peppers

Habanero--Danger! Warning! Small, yellow, and HOT.

Hungarian Wax--Looks like Sweet Banana, but WATCH OUT! They're warm!

Italian Roaster--6" long by 1/5" wide mildly hot peppers.

Jalapeno--Excellent flavor plump short green peppers turning to red in fall. Use for slices on top of nachos!

Mexibell--Bell pepper with a mildly hot sensation!

Mucho Nacho--Bigger, Hotter Jalapenos!

Pepperocini--moderate yellow Italian peppers for pickling!

Pimento--cute little golfball sized green peppers turning to red. When red they're sweet as sugar!

Senorita--Mild Jalapenos!!!!

Serrano--Smaller & hotter than Jalapeno.

Super Chili--Very productive conewhaped chili peppers that are 2 1/2" long.

Tabasco--Yes, this is hot.

Thai Hot--Just what the doctor ordered! Really hot peppers!

Tricked You--VERY mild, large jalapeno. For gringos.

GRAFTED TOMATOES--We carry a few varieties in 6" pots of heirloom varieties grafted onto an interspecific variety that may result in higher yields (heirlooms normally have relatively LOW yields) and better disease resistance based on research conducted at KSU by Dr. Cory Rivard.

(Chuck=Charles Marr, retired KSU vegetable specialist)
