## HOW TO MAKE GATHERED FLOWERS

1

To begin, collect your equipment:

Ribbons, sewing needle, pins, thread, tape measure, scissors, stamens/pearls, floristry wires, glue (hot glue gun or craft glue).

2

Now, take the specific ribbons that are provided in your kit to make your **gathered** flowers.

**Ruby** = Nebiolo + Mushroom Crushed Satin

**Citrine** = Oyster Chiffon

3

**Gold** = Olive Silk + Ivory Wired Organza

**Aquamarine** = Cornflower Chiffon + Mushroom Crushed Satin

**Amethyst** = Foxglove Chiffon + Aubergine Satin

4

To make your first flower, cut 3x 40cm pieces of ribbon. Lay all 3 together on top of one another, pin, and using double thread, sew a running stitch along the bottom edge.

5

Now, pull the cotton, gather your ribbon up tightly, and make a few stitches at the end to secure the gathers in place.

6

Next, join one end of the gathers to the other to form a circle. Pull tightly to close the gap, make a few stitches and tie a knot to complete.

7

Tease your ribbon layers apart to create a full bloom.

8

To attach the stamens/pearls, take a wire and bend over 5cms at the top. Thread your pearl, or twist and **glue** 3 double ended stamens into the top of the bent wire. Wind the remaining wire down the stem.

9

Thread the wire down through the centre of the flower and position the pearl/stamens. Then, turn over and apply a little glue at the back, to keep the wire in place.

10

Cut the wires to your desired length and arrange in a vase to create a beautiful display that will last all year long.
