# NEW PRODUCTS 2022

Our range of door infill panels is presented in two series: Natural and Aluminium. The Natural series includes door models in the Stone Line, Concrete Line and the new Ceramics Line. The Aluminium series has been expanded with new models in new designs and materials in the Lineo Line, Glass Line, Integro Line, New Black Design with Premium Line and Retro Line.

## NEW BLACK DESIGN

Inspired by exclusive New Black Design. In select Premium Line models, we replaced the stainless steel colour and accessories with black colour and accessories. When designing the new doors to emphasise the deep black applications, for contrast we used them in a composition with Woodec veneer available in four colours: Malt, Toffee, Alpine and Concrete. See at 32.

## HANDLES PZV, PZL

PZV and PZL are decorative pull handles with a modern design, made of aluminium with the possibility of matching colour and dimensions to the infill panel. The PZV pull handle was designed at the height of the infill panel in the shape of a vertical 3D profile with a comfortable handle in the middle. The second PZL pull handle, thanks to its design with a combination of wide profiles, can be assembled in the shape of a bracket. See at 46, 66.

## CERAMICS LINE

STOL

We have new Ceramics Line door infill panels available in three select steel colours: Corten, Concrete, Grey. In this collection we used quartz sinter material produced from natural resources resistant to scratches and easy to care for. See at 12.

## LINEO LINE

Recipient of the IRBS 2022 - Innovative Solutions of the Joinery Industry award - the new Lineo Line of door infill panels with vertical 3D aluminium fins. These designs are inspired by the decorative fins used on the façades of modern homes that reference the rhythm of tree trunks. See at 18.

## INTEGRO LINE

Integro Line door infill panels have been extended by models with a new recessed handle PWZ 2022. This handle is integrated with the door infill thanks to its construction, properly profiled and recessed into the aluminium door panel. LED backlighting can be used in it. See at 30.

## RETRO LINE

Retro Line is a line of door infill panels, which has been extended by new models with decorative designs. The new models are especially dedicated to classic façades or old tenement houses, made using retro aluminium designs with milled frames. These designs perfectly replicate the carvings found on classic wood doors. See at 60.

 Series

# NATU- RAL

 STONE LINE  
CONCRETE LINE  
CERAMICS LINE

# STONE LINE

Stone is an expression of the beauty and strength of nature. No other material reflects the perfection of nature as stone does. Its irregular structure, surprising shapes, and rich palette of colours allow you to create unique, inimitable designs on your door.

## ALU SL 01

Colour: natural stone MAKALU  
Handle: PQ 40 x 20 mm L-1600 mm, painted with RAL 9005

## ALU SL 02

Colour: RAL 7016 / natural stone MAKALU  
Decorative applications: 3D stainless steel  
Handle: PQ 40 x 20 mm L-1600 mm

MAKALU

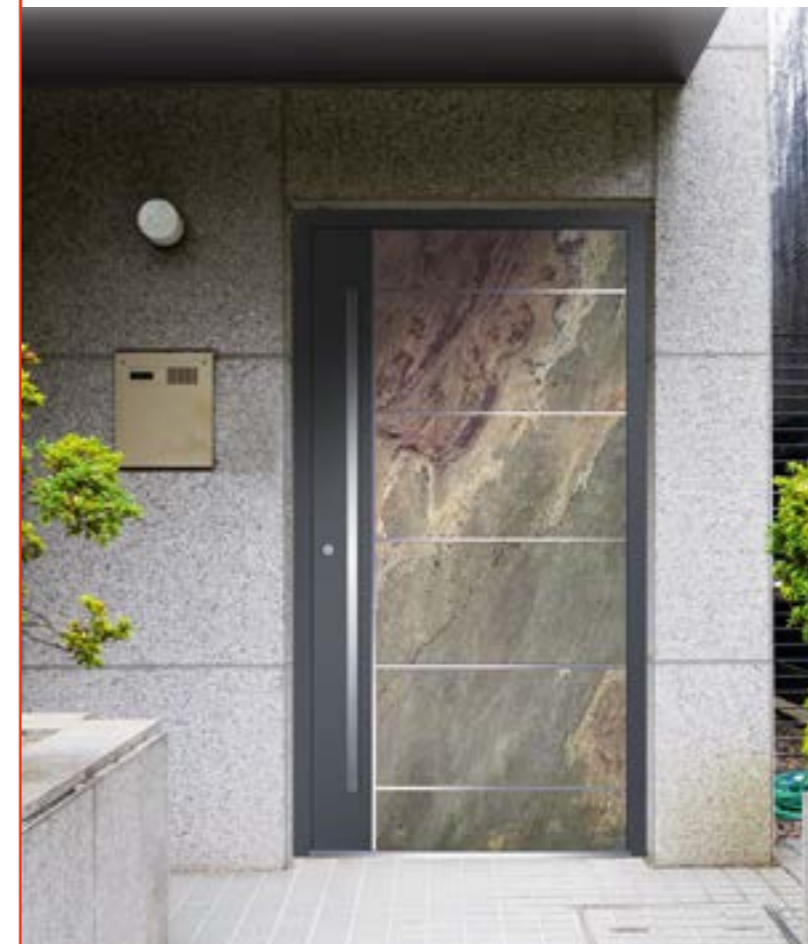

ANNAPURNA

EVEREST

Doors from the STONE LINE collection can be made in three available natural stone materials: MAKALU, ANNAPURNA AND EVEREST. The presented colours and texture of stone veneer may vary slightly from the finished product, due to the diversity and uniqueness of the natural material.

## ALU SL 03

Colour: RAL 7016 / natural stone MAKALU  
Glazing: Satinovo  
Decorative applications: 3D stainless steel  
Handle: PS 10 L- 1400 mm

Natural Annapurna stone combined with 3D stainless steel applications.

### ALU SL 04

Colour: natural stone ANNAPURNA  
 Glazing: Sand-etched as shown in design  
 Decorative applications: Metal painted to any RAL colour  
 Handle: PQ 10 40 x 20 mm L- 600 mm

### ALU SL 05

Colour: RAL 7016 / natural stone ANNAPURNA  
 Decorative applications: 3D stainless steel  
 Handle: PQ 40 x 20 mm L-1600 mm painted with RAL 9005

MAKALU

 Handle: PWZ L- 1600 mm, integrated with the panel, painted with RAL 9005

NEW PRODUCT 2022

# CONCRETE LINE

Architectural concrete creates a modern and stylish look for your door. Concrete Line door infill panels are characteristic for their minimalism and timeless design, perfectly fitting into modern architecture.

**ALU BE 01**

Colour: Architectural concrete  
Handle: PQ 10 40 x 20 mm  
L-1600 mm

**ALU BE 02**

Colour: Architectural concrete  
Glazing: Satinovo  
Handle: PQ 10 40 x 20 mm  
L-1600 mm ainted with  
RAL 9005

**ALU BE 03**

Colour: Architectural concrete  
Decorative applications: 3D  
stainless steel  
Handle: PQ 10 40 x 20 mm  
L-1600 mm

**ALU BE 04**

Colour: Architectural concrete  
Handle: PWZ L-1600 mm integrated  
with the panel, painted with  
RAL 9005

The presented colours and texture of architectural concrete may vary slightly from the finished product, due to the diversity and uniqueness of the natural material.

# CERAMICS LINE

Sintered stone is a combination of beauty, safety, durability and longevity. This ceramic imitates natural materials like stone, wood or metal. Ceramics Line patterns are a source of inspiration for designers in modern and traditional architectural solutions.

NEW PRODUCTS 2022

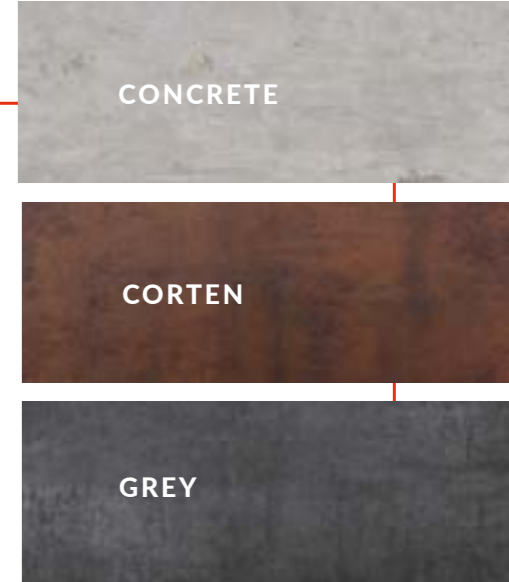

## ALU SK 01

Material: Quartz sinter  
Colour: Iron Corten Satin  
Applications: 3D stainless steel  
Handle: PW 22, stainless steel colour

## ALU SK 02

Material: Quartz sinter  
Colour: Iron Corten Satin  
Handle: PQ 10 40 x 20 mm, L-1600 mm painted with RAL 9005

Doors from the CERAMICS LINE collection can be made in the available three colours of quartz sinter: CONCRETE, CORTEN AND GREY. The colours and texture of quartz sinter shown may vary slightly from the finished product due to the variety and uniqueness of the natural material.

NEW PRODUCTS 2022

**ALU RL 09**

Colour: RAL 3004  
Applications: Aluminium retro  
patterns with vintage style frame  
Handle: PS 393417

# INFILL

## STANDARD INSERT PANEL:

These panels are mounted in the door frame in the same way as typical doors. The profile of the door is visible both from the inside and the outside. This is the simplest and easiest to install type of door infill, offered in thicknesses of 24 and 36 mm as standard.

## SINGLE-SIDED ATTACHMENT PANEL:

These panels are made from aluminium skin layers. On the outward facing layer, a 3 mm-thick aluminium sheet is attached to the door frame, making it invisible, while on the inward-facing side, beading is applied. This construction gives doors an elegant and cohesive look.

## DOUBLE-SIDED ATTACHMENT PANEL:

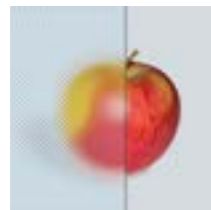

These panels provide the highest heat insulation parameters. Aluminium sheets cover the doors from both sides, ensuring elegance and refined aesthetics. The total thickness of the infill is greatest in this type of construction and is adapted to the particular type of door profile.
