

APPLICATION INSTRUCTIONS

DIRECTIONS

One 32 oz. bottle of Turf Titan® product will cover 5,000 - 8,000 sq ft depending on how quickly you move through the lawn

Please read the instructions to get the best results.

FOR BEST RESULTS

A day or two before application, water your lawn thoroughly

Remove weeds before applying product

Apply product to actively growing plants and lawns

Proper application is enough to fully drench the grass blades

DID YOU KNOW?

A basketball court is right around 5000 sq ft

- Shake product well before use.
- Have your hose pulled out and ready to cover the lawn.

TURF TITAN HOSE END JUG

- Connect the Turf Titan sprayer to your garden hose.
- Slide the switch to ON and turn the water on at a LOW to MEDIUM FLOW.

HOSE END SPRAYER

- Add product to your sprayer and set the sprayer amount to 4 oz.

PUMP-UP SPRAYER

- Mix 4-6 oz. product per 1 gal. of water.

- The higher the hose pressure, the quicker you need to move. If moving slowly, lower the hose pressure.
- Apply evenly across the lawn, wetting the blades of grass.

AFTER PRODUCT APPLICATION

- Water the lawn for 20 minutes.

ADDITIONAL APPLICATIONS

- Apply every four to six weeks and when soil temps are above 50°F.

Mow several days before application. Freshly cut grass is stressed and doesn't utilize products as well.
