

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220
Telephone: 07 5576 6388
Web/E-mail: www.eximport.com.au or info@eximport.com.au
Substance: Henna powder
Trade name: Elleebana Henna – Black, Dark Brown, Natural Brown, Light Brown, Blonde
Product Use: Brow Henna used to colour eyebrow hairs
Creation Date: October 2020
Revision Date: January 2023

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

I.N.C.I.	CAS Number:
Non-hazardous ingredients*	Various
Henna	84988-66-9
CI 73000	482-89-3

Mixture:

Chemical Properties: Powder
Name of Hazard Substance: None
Concentrations (Percentage): None
Hazard Class and Label: None

* Ingredients vary between products. List of ingredients will appear on individual product labels.
This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

Section 3: Potential Health Effects

Physical Description & Colour: Coloured Powder

Odour: No odour

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation:

Short Term Exposure: May cause respiratory tract irritation. The toxicological properties of this substance have not been fully investigated.

Long Term Exposure: No data for health effects associated with long-term inhalation.

Skin Contact:

Short Term Exposure: Available data indicates that this product is not harmful. It should present no hazards in normal use. Product may be mildly irritating but is unlikely to cause anything more than mild discomfort, which should disappear once contact ceases.

Long Term Exposure: No data for health effects associated with long-term skin exposure.

Eye Contact:

Short Term Exposure: This product is believed to be mildly irritating to eyes.

Long Term Exposure: No data for health effects associated with long-term eye exposure.

Ingestion:

Short Term Exposure: May cause digestive tract disturbances. The toxicological properties of this substance have not been fully investigated. May be harmful if swallowed.

Long Term Exposure: Not data for health effects associated with long-term ingestion.

Carcinogen Status:

ASCC: No significant ingredient is classified as carcinogenic by ASCC.

NTP: No Significant ingredient is classified as carcinogenic by NTP.
IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 4 – First Aid Measures

General Information:

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: Get medical aid immediately. Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

Eye Contact: Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed, while holding the eyelid(s) open. Obtain medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.

Ingestion: If victim is conscious and alert, give 2-4 cups of milk or water. Never give anything by mouth to an unconscious person. Get medical aid immediately. If symptoms present or develop, or if in doubt contact a Poisons Information Centre or a doctor.

Section 5 – Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Fire decomposition products from this product are likely to be irritating if inhaled.

Extinguishing Media: Not Combustible. Use extinguishing media suited to burning materials.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash Point: Does not burn

Upper Flammability Limit: Does not burn

Lower Flammability Limit: Does not burn

Auto Ignition temperature: Does not burn

Flammability Class: Does not burn

Section 6: Accidental Release Measures

Accidental Release: This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage.

Although no special protective clothing is normally necessary because of occasional minor contact with this product, it is good practise to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or watercourses and call emergency service.

Section 7: Handling & Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this MSDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risk to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Store packages of this product in a cool place and away from direct sunlight. Check packaging – there may be further storage instructions on the label.

Section 8: Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: AS/NZS 1715, Protective Gloves: AS 2161, Industrial Clothing: AS2919, Industrial Eye Protection: AS 1336 and AS/NZS 1337, Occupational protective Footwear: AS/NZS2210.

ASCC Exposure Limits **TWA (mg/m³)** **STEL (mg/m³)**

Exposure limits have not been established by ASCC for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: No special requirements are normally necessary for this product, however, make sure that the work environment remains clean.

Eye Protection: Eye protection such as protective glasses or goggles is recommended when this product is being used.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary, however, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

Protective Material Types: There is no specific recommendation for any protective material type.

Respirator: Usually, no respirator is necessary when using this product, however, if you have any doubts consult the Australian Standard mentioned above.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Powder of various colours
Odour:	No Odour
Bulk Density:	Not available
Refractive index:	Not applicable
Optical Rotation:	Not applicable
pH:	Not available
Solubility:	Dispersible in vegetable oils
Solubility in water:	Dispersible
Flash point:	Not available
Flammability limits:	(as % v/v in air)
Lower explosion limit:	Not available
Upper explosion limit:	Not available
Auto Ignition Temperature:	Not available
Melting point:	Not available
Boiling Point:	Not available
Vapour pressure:	Not available
Vapour density:	Not available

Section 10: Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions, however, if you have any doubts, contact the supplier. Shelf life for this product is 2 years or 6 months after opening.

Incompatibilities: No incompatibilities

Minimum durability before opening: 2 – 3 years

Minimum durability after opening: 6 months

Section 11: Toxicological Information

No tested data exists but the nature and concentration of the components suggest that no acute toxic effects are to be expected when used according to directions for topical application.

Target Organs: There is no data to hand indicating any target organs.

Classification of Hazardous Ingredients: No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.

Section 12: Ecological Information

No ecological or special considerations apply for use of normal pack sizes.

Not considered environmentally harmful from normal dilution, expected usage and typical drainage to sewers, septic systems and treatment plants.

Section 13: Spillage and Disposal Considerations

Spillage: Collect as per Section 6

Method of Disposal: There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may not always be appropriate.

Package Disposal: Cardboard units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

Section 14: Transport Information

ADG Code Classification: Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.

ACRONYMS:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS	Australian Inventory of Chemical Substances
ASCC	Office of the Australian Safety and Compensation Council
CAS Number	Chemical Abstract Service Registry Number
IARC	International Agency for Research on Cancer
NTP	National Toxicology Program (USA)
