

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220
Telephone: 07 5576 6388
Web/E-mail: www.eximport.com.au or info@eximport.com.au
Substance: Mascara
Trade name: Elleeplex Advanced Aftercare
Product Use: Mascara used as retail product and after a Lash Lift
Creation Date: January 2019
Revision Date: January 2023

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

INCI	CAS NO.	Concentration range
Purified Water	7732-18-5	to100 %
Hydrolyzed Collagen	92113-31-0	1.0 > 6.0 %
Squalane	111-01-3	1.0 > 5.0%
Propylene Glycol	57-55-6	1.0 > 3.0%
Polyquaternium-51	125275-25-4	1.0 > 3.0%
Alcohol	64-17-5	1.0 > 3.0%
Witch Hazel Extract	84696-19-5	1.0 > 3.0%
Glycerin	56-81-5	1.0 > 3.0%
Hydrolyzed Keratin	69430-36-0	1.0 > 3.0%
Biotin	58-85-5	1.0 > 3.0%
Arginine	74-79-3	1.0 > 3.0%
Bisabolol	515-69-5	0.1% > 1.0%
Lactobacillus	68333-16-4	0.1% > 1.0%
Panthenol	81-13-0	0.1% > 1.0%
Methylparaben	99-76-3	0.1% > 1.0%
Hydrolyzed Rice Protein	156715-40-1	0.1% > 1.0%
Cynara Scolymus Leaf Extract	84012-14-6	0.1% > 1.0%
Helianthus Annuus (Sunflower) Seed Oil	8001-21-6	0.1% > 1.0%
Allantoin	97-59-6	0.1% > 1.0%

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.

This ASCC TWA exposure value is the average airborne concentration of a substance when calculated over a normal 8 (eight) hour working day for a 5 (five) day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be

repeated more than 4 (four) times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 3: Potential Health Effects

Physical Description & Colour: Semi-solid liquid, clear in colour

Odour: Mild odour without perfume

Major Health Hazards: No significant risk factors have been found for this product.

Potential Health Effects

Inhalation:

Short Term Exposure: Not expected to be irritating to the respiratory system. Limited inhalation exposure anticipated.

Long Term Exposure: No data for health effects associated with long-term inhalation.

Skin Contact:

Short Term Exposure: This product is not expected to be irritating, sensitizing, photo allergenic or phototoxic when use as intended.

Long Term Exposure: If irritation occurs following intended use or prolonged contact it expected to be mild and transient.

Eye Contact:

Short Term Exposure: This product is not expected to be irritating to the eye area.

Long Term Exposure: No data for health effects associated with long-term eye exposure.

Ingestion:

Short Term Exposure: Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhoea.

Long Term Exposure: No data for health effects associated with long-term ingestion.

Carcinogen Status:

ASCC: No significant ingredient is classified as carcinogenic by ASCC.

NTP: No Significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

Section 4: First Aid Measures

General Information:

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

Inhalation: First aid is not generally required. No unusual hazards associated with this product.

Skin Contact: No unusual hazards associated with this product.

Eye Contact: For direct contact, rinse with large amounts of water. If irritation or redness persists, seek medical doctors. Obtain medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.

Ingestion: Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhoea. If symptoms present or develop, or if in doubt contact a Poisons Information Centre or a doctor.

Section 5: Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Fire decomposition products from this product are likely to be irritating if inhaled.

Extinguishing Media: Not Combustible. CO₂, foam or dry chemical, do not use water or water spray to extinguish.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash Point: Does not burn

Upper Flammability Limit: Does not burn

Lower Flammability Limit: Does not burn

Auto Ignition temperature: Does not burn

Flammability Class: Does not burn

Section 6: Accidental Release Measures

Accidental Release: This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage.

Section 7: Handling & Storage

Handling: Container may be hazardous when emptied. Since emptied containers retain product residues, all hazard precautions described on the MSDS must be observed. Avoid container damage while handling and storing.

Storage: Keep containers closed until used. To maintain product quality, do not store in heat or direct sunlight. Store in temperatures below 45°C.

Section 8: Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: AS/NZS 1715, Protective Gloves: AS 2161, Industrial Clothing: AS2919, Industrial Eye Protection: AS 1336 and AS/NZS 1337, Occupational protective Footwear: AS/NZS2210.

ASCC Exposure Limits **TWA (mg/m³)** **STEL (mg/m³)**

Exposure limits have not been established by ASCC for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: No special requirements are normally necessary for this product, however, make sure that the work environment remains clean and that vapours and mists are minimised.

Eye Protection: Eye protection is not required whilst using this product.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary.

Protective Material Types: There is no specific recommendation for any protective material type.

Respirator: No respirator is necessary when using this product.

For household Settings: This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseen use.

For Non-Household Settings: Use safety goggles if splash hazards exist, use gloves and other protective clothing (apron, boots etc.) to prevent skin contact. Always follow good hygienic work practices. Avoid prolonged contact with skin and clothing.

Section 9: Physical and Chemical Properties

Physical Description & colour:	Semi-solid liquid, clear in colour
Odour:	Without perfume
Boiling Point:	Approximately 1000°C
Freezing/Melting point:	Not applicable
Volatiles:	Water component
Vapour Pressure:	No data
Vapour Density:	No data
Water Solubility:	Completely soluble in water
pH:	4.0 – 5.5
VOC %:	0

Section 10: Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions, however, if you have any doubts, contact the supplier. Shelf life for this product is 3 years or 6 months after opening.

Conditions to Avoid: This product should be kept in a cool place, preferably below 45°C.

Incompatibilities: No incompatibilities

Fire Decomposition: Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Carbon monoxide poisoning produces headaches, weakness, nausea, dizziness, confusion, dimness of vision, disturbances of judgement, and unconsciousness followed by coma and death.

Hazardous Polymerisation: Will not occur

Minimum durability before opening: 36 months

Minimum durability after opening: 6 months

Section 11: Toxicological Information

No tested data exists but the nature and concentration of the components suggest that no acute toxic effects are to be expected when used according to directions for topical application.

Local Effects: Eye contact may cause stinging or irritation, if applied to skin – remove.

Target Organs: There is no data to hand indicating any target organs.

Classification of Hazardous Ingredients: No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.

Section 12: Ecological Information

No ecological or special considerations apply for use of normal pack sizes.

Not considered environmentally harmful from normal dilution, expected usage and typical drainage to sewers, septic systems and treatment plants.

Section 13: Spillage and Disposal Considerations

Spillage: Collect as per Section 6

Method of Disposal: There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may not always be appropriate.

Package Disposal: Cardboard and Aluminium units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

Section 14: Transport Information

ADG Code Classification: Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

Section 15: Regulatory Information

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

Regulated as a Cosmetic by the FDA (U.S.), Cosmetics Directive (EU), and CFDA(China).

According to 1223/2009/EC(EU), Hygienic standard for cosmetics (China)

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.
