

### **Section 1: Identification of Chemical, Product and Company**

**Address:** Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220  
**Telephone:** 07 5576 6388  
**Web/E-mail:** [www.eximport.com.au](http://www.eximport.com.au) or [info@eximport.com.au](mailto:info@eximport.com.au)  
**Substance:** Emulsifying Wax Adhesive  
**Trade name:** Elleebana Lash Lift Adhesive Squeeze Tube  
**Product Use:** Adhesive used when lifting lashes during the treatment  
**Creation Date:** January 2020  
**Revision Date:** January 2023

### **Section 2: Composition, Information on Ingredients**

#### **Pure Substance:**

#### **Ingredients I.N.C.I**

| <b>I.N.C.I.</b>                | <b>CAS Number:</b> |
|--------------------------------|--------------------|
| Aqua                           | 7732-18-5          |
| Polyvinyl Alcohol              | 9002-89-5          |
| Glycerin                       | 56-81-5            |
| PEG 60 Hydrogenated Castor Oil | 61788-85-0         |

Mixture:  
Chemical Properties: Emulsifying Wax  
Name of Hazard Substance: None  
Concentrations (Percentage): None  
Hazard Class and Label: None

### **Section 3: Potential Health Effects**

**Physical Description & Colour:** Clear Gel  
**Odour:** Slight  
**Major Health Hazards:** No significant risk factors have been found for this product.

#### **Potential Health Effects**

##### **Inhalation:**

**Short Term Exposure:** Avoid overexposure to vapours

**Long Term Exposure:** Avoid overexposure to vapours

##### **Skin Contact:**

**Short Term Exposure:** Repeated exposure may cause skin irritation

**Long Term Exposure:** Repeated exposure may cause skin irritation

##### **Eye Contact:**

**Short Term Exposure:** May cause slight irritation

**Long Term Exposure:** May cause slight irritation

##### **Ingestion:**

**Short Term Exposure:** Do not ingest, may cause irritation

**Long Term Exposure:** Do not ingest, may cause irritation

##### **Carcinogen Status:**

**ASCC:** No significant ingredient is classified as carcinogenic by ASCC.

**NTP:** No Significant ingredient is classified as carcinogenic by NTP.

**IARC:** No significant ingredient is classified as carcinogenic by IARC.

### **Section 4: First Aid Measures**

#### **General Information:**

Call the Poisons Information Centre immediately if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. Please have this Material Safety Data Sheet on hand when you call.

**Inhalation:** If overexposure to vapours occur, remove to fresh air

**Skin Contact:** Wash with soap and water. Seek medical attention if serious irritation occurs.

**Eye Contact:** May cause abrasion and irritation, irrigate by abundant water and seek medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.

**Ingestion:** Maybe harmful if swallowed. If symptoms present or develop, or if in doubt contact a Poisons Information Centre or a doctor.

#### **Section 5: Fire Fighting Measures**

**Appropriate type of extinguisher:** Material is not combustible. Uses extinguish agents that are suitable to be surrounding fire. Carbon dioxide, dry chemical or alcohol resistant foam recommended. Apply water spray to cool exposed closed containers.

**Potential Hazards during Fire Fighting:** Material is not combustible. Fire or excessive heat may produce hazardous decomposition of products, which may intensify the fire, Thermal decomposition may produce oxides of carbon and nitrogen: explosive vapour.

**Special Procedures for Fire Fighting:** NIOSH-approved Self-Contained Breathing Apparatus (SCBA) and full protective equipment recommended.

**Personal Protective Equipment:** Full protective clothing.

#### **Section 6: Accidental Release Measures**

**Personal Precautions:** Keep away from heat, sparks and flame. Ensure sufficient supply of air. Avoid inhalation and contact with eyes and skin. Secure possible sources of ignition.

**Environmental Conglobations:** For liquid products, collect using absorbent materials. Diluting with water is possible. Flush residue using copious water.

**Disposal Procedures:** Dispose at suitable refuse site according to local and national regulations materials, which cannot be recycled into your process, should be land filled in accordance with local environmental control regulations.

#### **Section 7: Handling & Storage**

**Handling:** Provide adequate ventilation in storage area. Keep away from sources of ignition. Do not smoke; keep away from heat, spark, flame and contamination. Keeping products away from eyes face and skin, keep container closed when not in use. Avoid contact with eyes and skin. Wash thoroughly after handling.

**Storage:** Keep product tightly closed away from heat and direct sunlight. Avoid extreme temperatures. Store away from food and beverages.

#### **Section 8: Exposure Controls and Personal Protection**

**Engineering Control:** Provide adequate ventilation

**Control Index:** Local exhaust is not required.

**Personal Protective Equipment:**

**Hands:** Water liquid proof rubber gloves. Thoroughly rinse the outside of the gloves with water prior to removal. Inspect regularly for leaks.

**Eyes:** Safety glasses. Water approved safety glasses with side shields.

**Skin & Body:** Wear chemical splash-type mono goggles (apron) if splashing is expected.

**Hygiene Measures:** Always handle and apply in a careful manner. Do not share with others, do not add anything to the product, Cap tightly after use to prevent moisture-entering product and maximise product self-life. If changes in product occur, discontinue use.

#### **Section 9: Physical and Chemical Properties**

|                                |                              |
|--------------------------------|------------------------------|
| Physical Description & colour: | Transparent Gel              |
| Odour:                         | Slight                       |
| Boiling Point:                 | Approximately 90°C at 100kPa |
| Decomposition temp:            | Approximately 50°C           |
| Vapour Density:                | No data                      |
| Density:                       | 1.1                          |
| Water Solubility:              | Approximately 50°C           |
| pH:                            | 5-9.2                        |
| VOC %:                         | 0                            |

#### **Section 10: Stability and Reactivity**

**Stability:** This product is stable compound under recommended storage conditions; Excessive heat could cause product changes and cannot be used.

**Potential Hazards under special conditions:** Hazardous polymerization will not occur.

**Conditions to avoid:** Avoid heat, dirt, organics and combustibles.

**Incompatibilities with other materials:** Avoid heating, open flames, ignition sources and electrostatic charge.

**Minimum durability before opening:** 12 months

**Minimum durability after opening:** 3 months

#### **Section 11: Toxicological Information**

**Urgency of Toxicity:** Base upon industry-wide experience over many years of manufacturing and published toxicological studies, the listed products in general are considered to have very low levels of toxicity, there is no evidence of harmful effects from available information.

**Partial Effect:** No adverse effects expected

**Nature of Allergen:** No adverse effects expected, slight irritation may occur

**Lasting period of toxicity:** Data not established for this product

**Special effectiveness:** Data not established for this product

#### **Section 12: Ecological Information**

The biodegradation of the product under aerobic conditions is expected to be poor and there is no evidence to suggest they create any significant ecological problems when released into environment.

#### **Section 13: Spillage and Disposal Considerations**

**Spillage:** Collect as per Section 6

**Method of Disposal:** There are many pieces of legislation covering waste disposal and they differ in each state and territory, so each user must refer to laws operating in their area. In some areas, certain wastes must be tracked. The hierarchy of controls seem to be common – the user should investigate: Reduces, Reuse, and Recycle and only if all else fails should disposal be considered. Note those properties of a product may change in use, so that the following suggestions may no always be appropriate.

**Package Disposal:** Cardboard units are generally recyclable if the product has not been contaminated. Only if neither of these options is suitable should landfill be considered.

#### **Section 14: Transport Information**

**ADG Code Classification:** Not classified as a hazardous material or as a Dangerous good. No special transport conditions are necessary unless required by other regulations

Finished packaged product transported by ground (DOT): Non-hazardous

Finished packaged product transported by vessel (IMDG): Non-hazardous

Finished packaged product transported by air (IATA): Non-hazardous

**Special Handling Procedures and Precautions:** Keep away from heat

#### **Section 15: Regulatory Information**

**AICS:** All of the significant ingredients in this formulation are compliant with NICNAS regulations.

#### **Section 16: Other Information**

**This MSDS contains only safety-related information. For other data see product literature.**

**Product name:** Elleebana Lash Lifting Adhesive Squeeze Tube

**Manufacturer's product code:** 13611

**UN-number:** Not available

**USE:** Lifting of lashes when lash lifting
