

Ford Range 2.3/2.5L Adaptor Kit – CEV5098

Overview

All adapters retain use of original clutch and fit most NetGain Hyper9, WARP 9 and HPEV AC34/AC35/AC50/AC51 Motors. Some adapter plates may have more or less bolt holes than your make and model of vehicle requires. As some adapters span a broad range of model years the adapter is designed to have enough bolt holes to be compatible with all model designs.

Specifications

- All adapter kits come with required hardware
- If using a HyPer9 motor, you may also need a shaft collar spacer, which is included
