

Downrods

Specifically designed for Hunter ceiling fans, mounted indoors or outdoors, these downrods have a tapered thread at one end (for deeper engagement), and can be shortened to suit application, though care must be taken when re-drilling.

* 26.67mm OD * 1.78mm Metal Thickness * 3/4-14NPT thread

Indoor Downrods:

Amber Bronze (Bronze Patina)

28207: 18"/45.7cm
28209: 36"/91cm

Antique Brass

22729: 18"/45.7cm
26329: 36"/91cm
23060: 72"/183cm

Antique Pewter

28055: 18"/45.7cm
28057: 36"/91cm
28060: 72"/183cm

Black

26219: 18"/45.7cm
26228: 36"/91cm
23064: 72"/183cm

Bright Brass

22723: 18"/45.7cm
26323: 36"/91cm
23062: 72"/183cm

Brushed Nickel/Brushed Chrome

26020: 18"/45.7cm
26022: 36"/91cm
26025: 72"/183cm

Matte Silver

99302: 18"/45.7cm
99304: 36"/91cm
99307: 72"/183cm

New Bronze

26042: 18"/45.7cm
26043: 24"/61cm
26044: 36"/91cm
26047: 72"/183cm

White

22727: 18"/45.7cm
26317: 24"/61cm
26327: 36"/91cm
23067: 72"/183cm

Outdoor Downrods

(Rust proof powder coated stainless steel construction)

New Bronze

25999: 18"/45.7cm
26007: 24"/61cm
26008: 36"/91cm

Raw Aluminium/Stainless Steel

28251: 36"/91cm

White

99747: 18"/45.7cm
99749: 36"/91cm

Note: Hunter fans are made with approximately 60cm of wiring loom coming out of the fan.

Therefore no wiring loom is needed for the 18"/45.7cm downrod, however all 24"/61cm, 36"/91cm and 72"/183cm downrods come with an extension loom included.

As the thread is only required at the fan motor end, all downrods can be cut to achieve the exact height desired.
