DIGITAL ESCAPE ROOM RULES

ESCAPE ROOM RULES

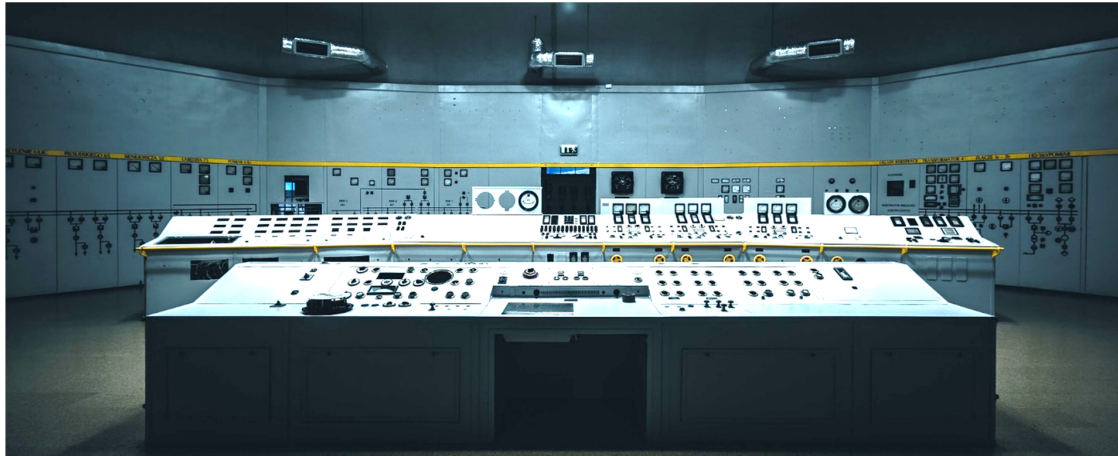

1. Once you and your team are ready to start, hit the timer button. You are not allowed to pause or change the time. Your teacher will tell you how much time to put on the timer.
2. Make sure you look at and read **EVERYTHING** in each section, including titles, images, etc.
3. Write answers in **ALL CAPS** with **NO SPACES**.
4. You are allowed **ONE FREE HINT**.
5. After your free hint, you are allowed two more hints, but they will cost you 3 minutes on the clock per hint!
6. Please do not Google the answers.
7. Please do not share your answers with other students.

★ These are the suggested rules. You can verbally modify them to suit the needs of your students.

SAMPLE STORYLINE

LOST IN THE POWER PLANT

You are on a field trip to your local power plant. It is interesting to see how electricity is created for your home. There is just one problem – you really want to visit your uncle who works at the plant. You decide to quickly check the cafeteria to see if he is on his lunch break. Unfortunately, you misread the map on your way in today and did not locate the cafeteria. You accidentally ended up in the control room for the whole facility! The doors are locked and you need to find a way to get back to your class. Solve the next 10 challenges to see if you can get out of the room and back to your class before they board the bus to go back to school.

- ★ Each digital escape room has a similar storyline.
- ★ Students get locked into a room and have to solve different themed challenges to unlock the door and return to their classmates or school.

SAMPLE LOCKS

CHALLENGE #2

Match each common household fluid to its use (e.g., A6). The lock will be the combination of 8 letters and numbers.

Common Household Fluid	Fluid Use
A. Antifreeze	1. A minty fluid that keeps your breath smelling fresh
B. Vinegar	2. Liquid to drink on its own, to add to cereal, or to cook or bake with
C. Mouthwash	3. Liquid used in or as nail polish remover and paint remover
D. Disinfectant	4. Fluid used to pickle vegetables as well as a cleaning agent
E. Milk	5. Liquid used to clean hands or clothing items
F. Detergent	6. Fluid that prevents a car's radiator from freezing up
G. Cooking oils	7. Fluid used to kill germs, such as hand sanitizer
H. Acetone	8. Liquid used to cook with or to add into cooking mixtures

CHALLENGE #3

You find a code written on the wall of the International Space Station. Use the cipher to discover the secret code.
