WHAT'S INSIDE?

Lesson Overview

- Lesson 1: Introduction to Digital Citizenship
- Lesson 2: Online Safety and Privacy
- Lesson 3: Responsible Technology Use
- Lesson 4: Smartphone Addiction
- Lesson 5: The Impact of Your Digital Footprint
- Lesson 6: Online Etiquette
- Lesson 7: Common Scams
- Lesson 8: Smartphone App Privacy
- Lesson 9: Influencer Marketing
- Lesson 10: Sub Plans – Topic: Twitch.TV

LESSON 1

What Is Digital Citizenship?

Lesson Overview: Students will learn what digital citizenship is in this lesson.

Required Materials:
- ☐ Video – What Is Digital Citizenship?
- ☐ Photocopy a class set of or use the provided Google Slides version:
  - ▪ KWL Chart
  - ▪ Digital Citizenship Article
  - ▪ Digital Citizenship Thinking Question Handout

- ☐ P...
- ☐ S...
- ☐ C...
- ☐ D...

Teac...
1. ...today.
2. Cut out the digital citizenship scenarios. Shuffle them and randomly hang them up around the classroom or the hallway.
3. Explain to students that they will work in pairs, reading each scenario to determine if they are appropriate or inappropriate digital citizenship scenarios. This is an anticipatory set activity. Do not define digital citizenship for them. Tell them they can start at any scenario – it does not need to be A.
4. Once students have completed their scavenger hunt, take up each scenario as a class through a class discussion. Once the class votes on whether each scenario is appropriate or inappropriate, place the scenario card around either the 'Appropriate Digital Citizenship' or 'Inappropriate Digital Citizenship' title card. This could make a bulletin board if you would like. Have students vote actively – by holding signs or standing up/sitting down to signify their choice.

ANSWER KEY

Scenario	Is This Scenario Appropriate Or Inappropriate Digital Citizenship?	Explain Your Answer
A.	☐ Inappropriate ☐ Appropriate	The student is being responsible and refraining from taking part in cyberbullying.
		The student immediately reported what they found to the teacher.
		The student was smart in not sharing any personal information online.
D.	☐ Inappropriate ☐ Appropriate	The student created a strong and unique password and didn't share it with anyone.
E.	☐ Inappropriate ☐ Appropriate	The student is making sure to put art online that will positively represent her in the future rather than posting anything.
F.	☐ Inappropriate ☐ Appropriate	The student was responsible and credited the original author rather than claiming the work as their own.

ANSWER KEYS

DIGITAL CITIZENSHIP

What is Digital Citizenship?
In this digital age, people must understand digital citizenship to participate in the online world with a sense of responsibility.

Just as we are taught to be good citizens in our communities, being a responsible digital citizen is important in maintaining a safe and positive online environment for everyone.

What is Citizenship?
Citizenship refers to the rights, responsibilities, and behaviours expected of a member of a community or society. It involves actively participating in the...

Applying Citizenship to the Digital World

DIGITAL CITIZENSHIP

- **Protect Personal Information:** Never share personal details like your address or passwords.

- **Respect Copyright:** Give credit to authors and follow the rules for using their work.

- **Think Critically:** Be smart about the information you see online and make good choices.

What Is Digital Citizenship?
Digital citizenship means being a responsible and kind person when using the internet. Just like we act responsibly in our real-life communities, we should also be good citizens online.

Final Thoughts
Digital Citizenship is about being responsible and safe online, just like how we behave in real-life communities.

ONLINE SAFETY

www

Online safety is something everyone should be concerned about. If you are using the internet you need to think about what information you are sharing.

Remember nothing you share in a text message, on social media or in any online space is private. Screenshots can be taken and shared with others who were never the indented audience.

There are many safety issues on the internet such as:

COMMON SCAMS

Phishing attacks are typically carried out through fraudulent emails, messages, or websites that appear to be from legitimate

What is a Scam?
In this digital age, people must be aware of online scams. An online scam is when someone tries to trick you on the internet to take your money or personal information.

They might pretend to be someone you can ...
you som...
importan...
share yo...
online.

What is ...
Phishing is a form of cyber attack where scammers try to deceive individuals into revealing sensitive information, such as usernames, passwords, financial information, or other personal data. The term "phishing" is a play on the word "fishing." The scammers are "fishing" for personal information.

ARTICLE QUESTIONS /7

Name: _____

Instructions: Answer the questions below on this paper.

Comprehension Questions:

1. What is Twitch?

TWITCH.TV

What is Twitch?
Twitch is an online streaming service for gaming. Viewers can watch people play video games live or through recordings, compete in eTournaments, and listen to audio commentary. The service also str...
tournaments.

Twitch.tv is its ...
referred to sim...
Amazon bought...
$1 billion.

How Does It W...
People can follo...
gamers on Twitch for free. The same way someone would on social media. There are also different levels of paid subscriptions to the service.

Viewers can access streaming on various platforms, including gaming consoles, computers and mobile devices. Twitch also has an app and software that allows users to integrate the platform across multiple places.

The Gamers
Professional gamers can make a living by playing video games and streaming them on Twitch. They connect with fans by providing commentary as the game is being played.

...ccess Twitch?

Twitch partnership, and part of that is meeting requirements, such as having a certain number of viewers and broadcasts each week.

...amer meet in order to be accepted into a

Viewers can also donate to their favourite players, who can provide them with game tips and hacks.

How They Do It
To be a successful streamer, there are technical things a gamer needs:
- Streaming software (or a gaming system that allows you to stream, such as Xbox or PlayStation)
- A Twitch account
- Microphone
- Camera
- Computer
- An internet connection
