

Air Conditioner Polarix

Elegant, powerful and with a Swiss design in a combination of noble anthracite and luxurious gold.

If the temperature in your home becomes almost unbearable, you need to cool it down urgently and efficiently. With 9000 BTU, the air conditioner Polarix offers a quick and flexible solution! The device is characterized by low energy consumption (energy class A), a 24-hour timer and a remote control, as well as additional fan and dehumidification modes. Thanks to its castors, Polarix can be used immediately wherever cooling is required. Another significant feature is the design, which was created in Switzerland and expresses style with sophistication in elegant anthracite and luxurious gold.
