

Infra-Red Thermometer

Model: AZ8889

Food grade Infra-Red Thermometer gun

This gun style unit has inbuilt laser sight. The laser can be turned on & off from the keypad to prolong battery life & prevent nuisance targeting.

Complete with manual and wrist safety strap.

Wide range and **adjustable emissivity** in 3 steps for accuracy on different materials.

Meets food standards requirements.

Fastest and cleanest way to measure temperature.

The wide temperature range makes it suitable for many applications in the food industry including cooking, production, display, plating, dispatch and delivery.
