

HLP New Product Information Sheet.

Drill Temp

Model Drill Temp

This probe type thermometer is fitted with a heavy sharp probe with an external cutting crew thread. The screw thread will drill into any frozen products to read the temperatures. This unit is ideal when you just have to have the core temperature of a frozen product. Also ideal for sampling frozen products. Displays temperature to 0.1 degrees C - as required by most HACCP (food safety) systems, pocket style, easy to use, safety cover over the probe - wide temperature range and low cost *“easily our most heavy duty unit”*. By keeping the cost down and the features high, this probe puts food safety within reach of everyone.. Café, restaurant, take away, service station, delivery drivers etc.

- ! Measures temperatures from:
-50C to +150 C.
WATERPROOF
Self drilling frozen food
HEAVY DUTY
INDUSTRIAL
Thermometer
- ! Sturdy, 100 mm, **stainless steel**, **food grade probe.8 mm dia .**
- ! Minimum / maximum display and memory
- ! One second sensing time.
- ! Low battery indicator.
