

# HLP New Product Information Sheet.

## Model: PE200-4-2 (-3-4)

This is a full mains protection system for solar installs for more than 1 inverter and over 30 KW. This system meets the requirements for most Energy authorities including Endeavour, Ausgrid, Ergon, Energex, City power, SA Power, NT Power, etc.

These are completely built and tested and ready to install.  
All programming and setting is done and the box includes the inverter connection MCB.  
Quoted prices include the drawings.

So just mount to the wall, connect to mains power and connect the inverters.  
Metal box Ip65 - New smaller size (500 x 400 x 180 mm)

## Specifications:

- Metal box
- Inbuilt 100A Mains Switch
- Each inverter can be up to 27.6KW
- Max 4 inverters
- Inbuilt MCB for each inverter
- Inbuilt test points for commissioning
- Meets AusGrid requirements
- Includes slide disconnect terminals for test and certification
