

# Temperature & Humidity Display

Model: Room Temp

## LCD Temperature & Humidity Display with Memory

This large display shows the humidity and temperature in an area. One key operation to display the maximum & minimum temperature and humidity memory readings and easily reset to continue to record.

Keyhole mount or flip-out stand - it can be placed anywhere and easily moved around when needed. Modern styling makes it perfect for use in offices, warehouses, kitchen areas (not wet areas), nursing homes, child-care centres, or home, etc – anywhere a check of the ambient temperature and humidity is needed.

Great for use in storage areas where sensitive goods are stored eg: paper, dried food, seeds, etc.
