

pH Meter

Model: SI-PH11

Pen Style pH Meter

This is a new pH meter suitable for food manufacturing, including sushi, rice, powders, solids, etc. Very small sample required on the new technology flat pH sensor. Scoop or drop sample onto the sensor. Superior product, made in Japan with 2 year warranty!

SPECIFICATIONS	
Resolution	0.1pH
Accuracy	+0.1pH
Calibration	2 Point
Minimum Sample Vol	0.1mL
Measurement Range	0 - 1mL
Measurement Principle	Glass Electrode Method.
Calibration Curves	USA / NIST
Operating Temperature	5 - 40°C
Operating Humidity	85% or less
Battery	2 x CR2032 Included
Battery life	Approx 400 Hours
