Our goal is to provide you with practical, current and transferable information that you can apply to the work you do in your campus community. To make this experience a successful one for you and your staff, you can:

- Send a reminder to all expected attendees with the time and location of the webinar — keep in mind that our live webinars are promoted on Eastern Time so be sure to make the conversion if appropriate for your location.
- Set up any technological needs you have in advance of the webinar.
(You will find instructions for accessing the webinar on your instructions sheet.)
- Advise your attendees to print out the handouts and have a pen handy for taking notes. *(Your handouts will be available 24 hours prior to the live webinar. Download them at www.paper-clip.com/handouts via the password on your instructions sheet.)*
- Allow for extra time after the webinar to discuss what was learned and how you might move forward on your campus. We want to help you begin that discussion, so we work with our presenters to provide you with debriefing questions you can have on hand to get the conversation started.
(Debriefing questions will be available with your handouts.)
