FCC Caution (FCC ID: 2AJCLTWAC-TYWFS)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The distance between user and device should be no less than 20cm.

- If the appliance have the Wi-Fi function , the transmission power: less than 20dBm, and the radio frequency range is: 2412MHz - 2472MHz.
- The appliance is compliant with the RE Directive (2014/53/EU).

Wi-Fi Module specification and basic information

1. **Minimum specifications on a Smart phone:**

Android 5.0 version or higher

IOS 10.0 version or higher

2. **Basic parameters for Wi-Fi:**

Parameters	Details
Network frequency	2.400 - 2.500GHz
Standards of WLAN	IEEE 802.11 b/g/n(channels 1-14)

Download and Install the App

Method1: Please scan the QR code with a browser scanner, download and install the APP.

Android

IOS

Method2:

For Android smart phone, open the Google "Play Store" on your smart phone and search "SmartLife-SmartLiving", download and install the APP.

For IOS smart phone, open the Apple "App Store" on your smart phone and search "SmartLife-SmartLiving", download and install the APP.

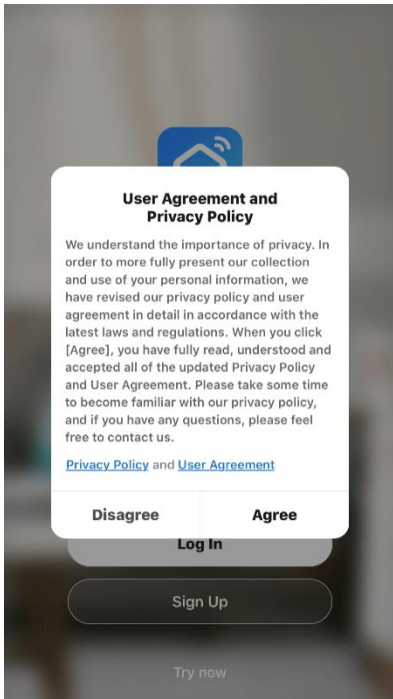

Note:

Alternatively, you could also download the "TUYA Smart" application which is also compatible, but has some slight differences in the layout and functions

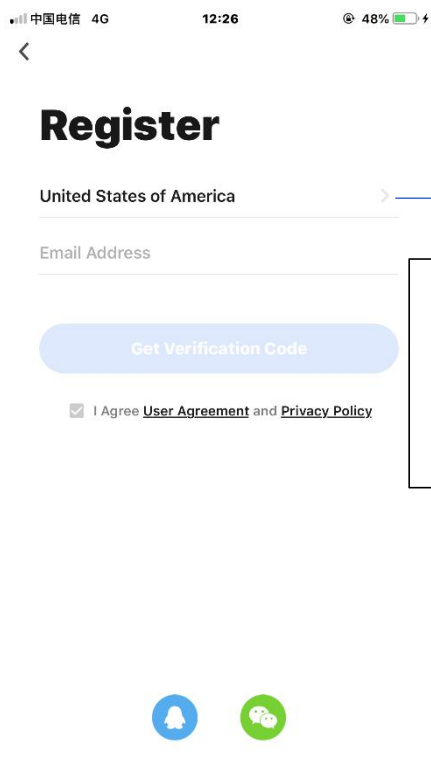

Please enable the permissions of Storage/Location/Camera for this APP when installing. Otherwise it will have some problems when operating.

Registration

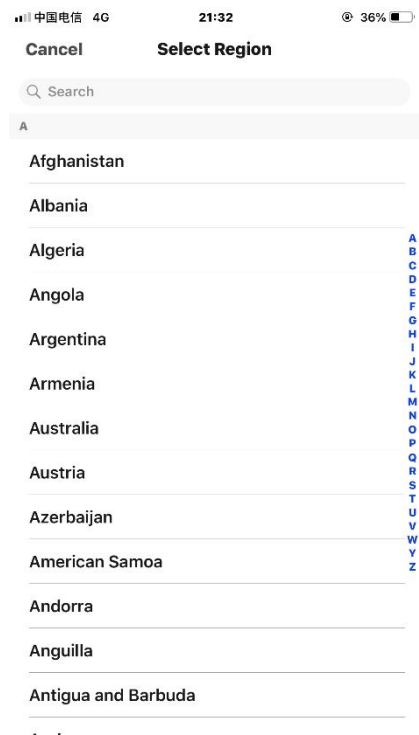

- 1.If you don't have any account please tap button "Sign Up".
- 2.Read the Privacy Policy and tap "Agree".

3. Tap ">" and choose the country.

Search the country or slide the screen up/down to find and choose the country.

4. Enter your E-mail address.

5. Tap the button "Get verification code".

Register

United States of America >

Done

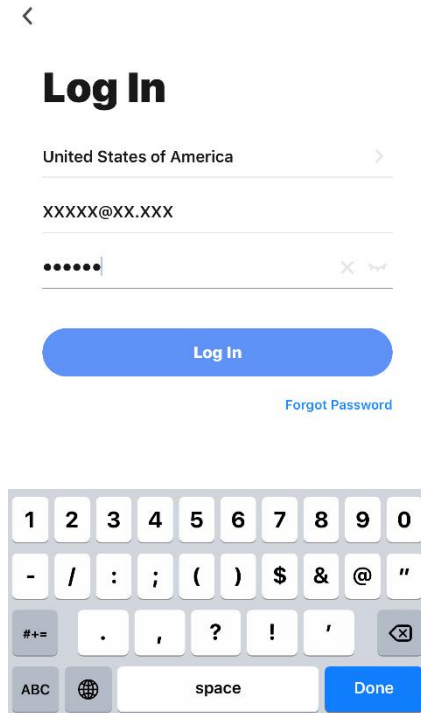

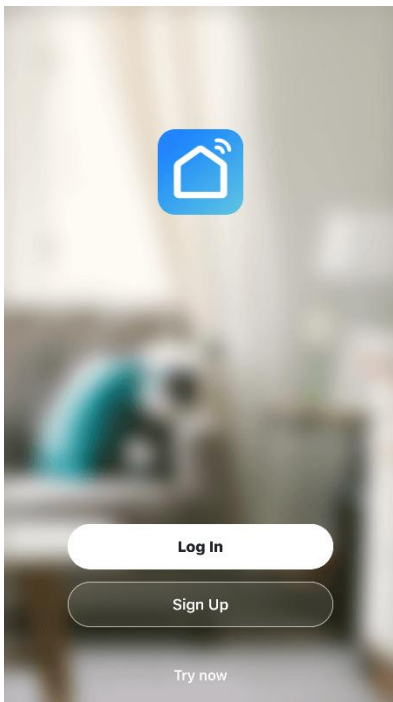

Log in

1. If you already have account, tap "Log in".

2. Enter your registered account and password.

3. Tap "Log in" button.

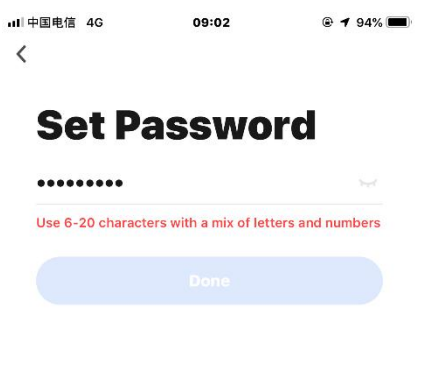

Log in

Forgot the password

If you forgot the password or you want to reset the password, operate as below:

1. Tap "Forgot password".
2. Enter your account (E-mail address) and tap button "Get verification code".
3. Enter the verification code received by your E-mail.
4. Set the new password and tap button "Done".

Add device

There are 2 methods to add the device.

Please **power on** the appliance, but **do not press the “” button** to turn on it.

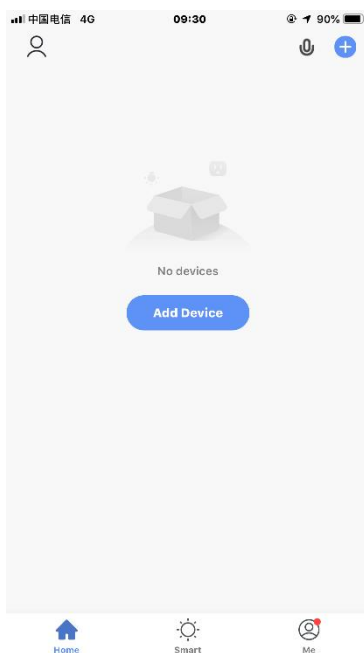

1- Switch on Wi-Fi function

1.1 Hold the “Fan” and “-” button about 5 seconds to switch on the Wi-Fi function.

The display screen will show the “CF”,and follow the CF mode to connect.

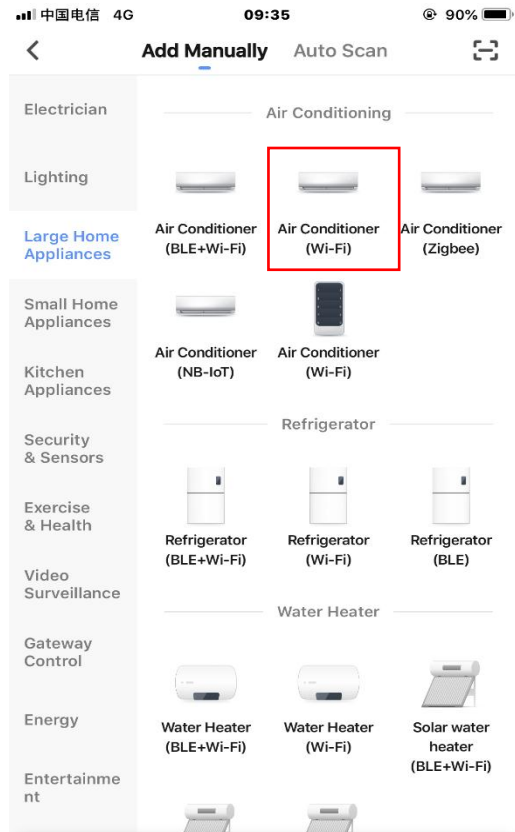

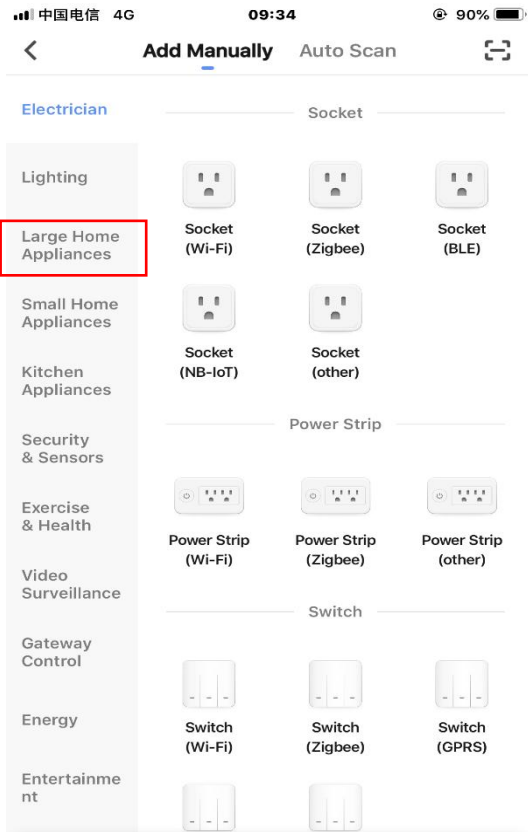

2-CF mode

2.1 Click “+” in the upper right corner of the "Home" screen or tap "Add device" on the room which has no device.

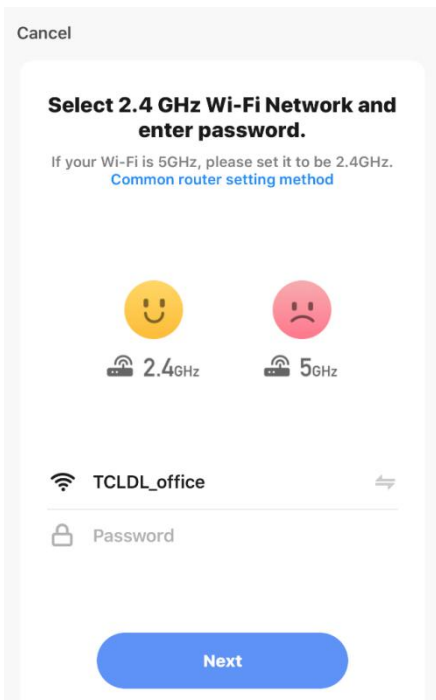

2.2 Tap the "Large home appliances" logo

2.3 Tap the "Air conditioner(Wi-Fi)" logo.

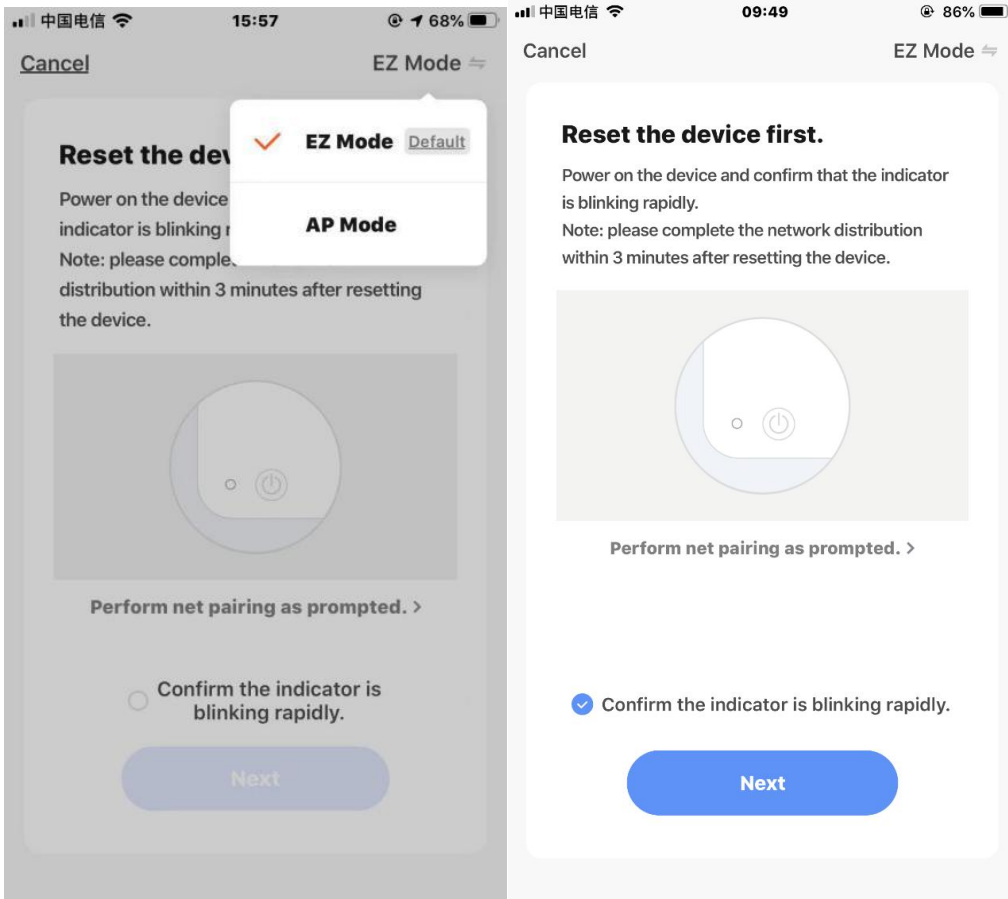

2.4 Input the password of the Wi-Fi which the same as your smart phone connected, then tap "Next".

Note: Please make sure the "Password" is correct, or the connect will be failure.

2.5 Click "↔" in the upper right corner and select the "CF Mode" or "EZ mode" , and tap "Next".

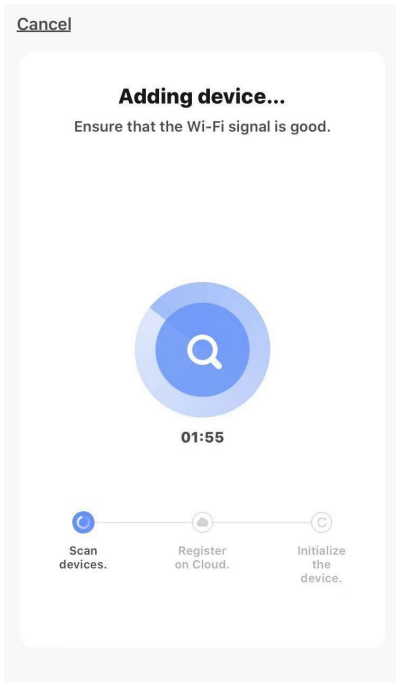

2.7 You can see the percent rate of connecting process, at the same time "PP", "SA", "AP" shining in turn on the appliances display.

"PP" means "Searching the router"

"SA" means "connected to the router"

"AP" means "connected to the server"

Added.

Done

2.8 If connect Wi-Fi failure, please try to reset WIFI module and connect it again.

Press the “FAN” button on the control panel 6 times within 4 seconds, wait about 10 seconds, until the LED screen show “CF”. There will be switch between “CF” and “AP” if repeat press 6 times within 4 seconds.

Note: Every time reset the Wi-Fi, must wait about 10 seconds, then the screen will display “CF” or “AP” 5 times.

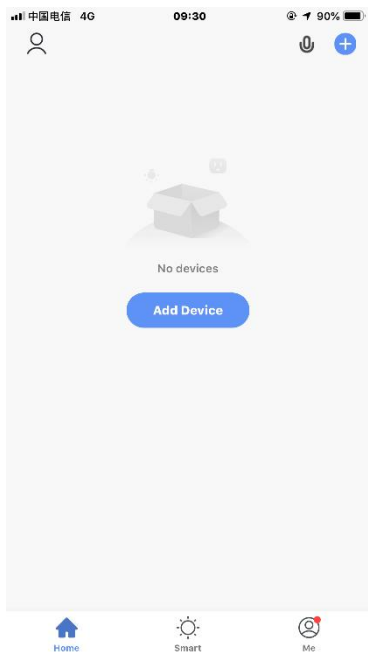

Add device

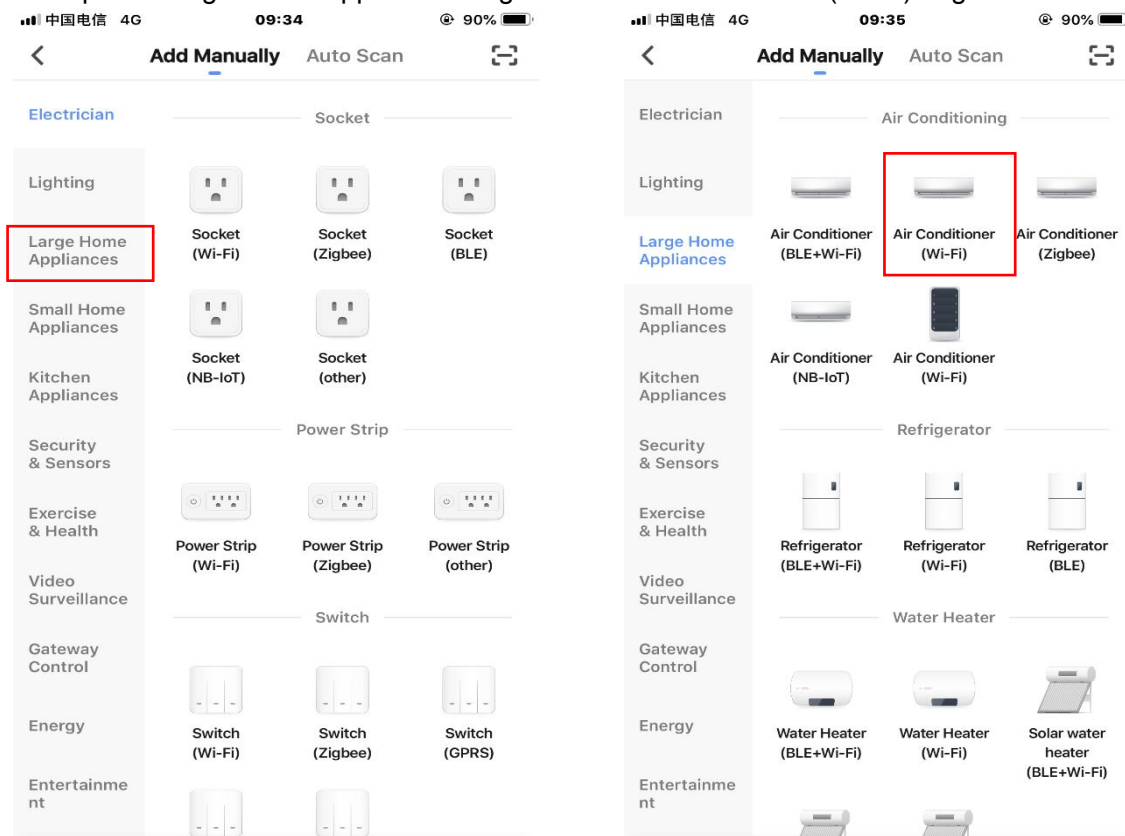

3-AP mode

Note: The original state of the newly bought unit is in CF mode. If you choose to use AP mode, Please press the “FAN” button 6 times within 4 seconds, wait about 10 seconds, until the LED screen show “AP”, then start to connect it.
