SCHOOLHOUSE KEG BOX DISPENSING

1. SCHOOLHOUSE KEG BOX

- Best option for keeping beer cold, easy to dispense, and fresh.
- Can be used anywhere. No power is necessary. It will keep beer cold on the hottest days.

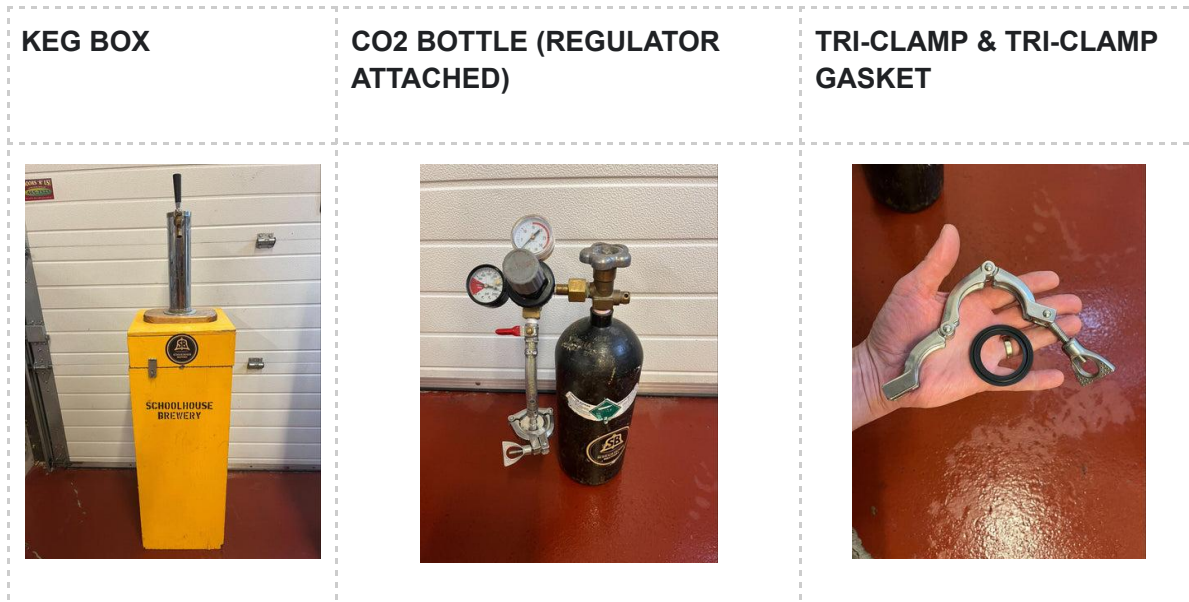

1a. KEG BOX FEES

- Keg Box rental fee = \$20/ weekend (Friday to Tuesday)
- Deposit = \$100 for keg and associated dispensing equipment

1b. KEG BOX COMPONENTS

1. Keg Box

2. 20L keg of beer
3. Garbage bag
4. Bag of ice (customer responsibility)
5. CO2 bottle with regulator
6. Tri-clamp and gasket (often, these are attached to the CO2 regulator hose)

1c. LOADING THE KEG BOX

1. Open Keg Box
2. Put 20L keg (cold) in a garbage bag, then lift into the Keg Box
3. Connect tri-clamp and gasket to CO2 bottle line and CO2 line from keg coupler.
4. Connect keg coupler to keg
5. With the coupler handle in the up position line up the ears of the keg spear with notches in keg coupler
6. Turn coupler ¼ turn to connect to keg, and push handle down.
7. Open CO2 bottle by turning the tap on top of the tank. Open small ball valve on the regulator. Pressure should be 10-12 PSI
8. Pour ice over the keg and coupler. Melting ice should be contained in the garbage bag lining the box
9. Close Keg Box, and guide the gas line through the notch in the lid.
10. Pour beer and enjoy.

1i. TIPS

- Close the CO2 bottle when done serving for an extended time
- **If you are having difficulty, call Cam at **(902) 790 2364***

3. RETURNING THE EQUIPMENT

Best to return equipment during Taproom business hours: **11 a.m. - 8 p.m., Tuesday to Sunday.**

If returning equipment on a Monday (when the Taproom is closed):

- Come to the back loading bay door; production staff are working and can accept the equipment return
 - **Alternate arrangements may have to be made regarding the deposit refund if dropping off equipment on a Monday*
-
