

ASSEMBLY & INSTALL *Directions*

We've got you covered!

Assembling the frame and inserting the fabric face is super easy and fast - a child can do it.

You can find helpful videos on our "**SWITCH-ART**"  **YouTube Channel**.

Switch-Art "FRAME" Assembly - in REAL TIME - only 3 minutes!

Dominic is showing us how easy it is to assemble the Switch-Art FRAME.

1. Lay out the pieces to create your shape.
2. Take out the 4 metal corner connectors and tightening tool.
3. Insert the connectors to the SIDE pieces FIRST (trust me on this one!)
4. Slide the TOP & BOTTOM pieces onto the connectors.
5. Push all 4 sides together & tighten the screws!

If the corners get stuck use the tool to loosen the screws a little and they will slide in smoothly.
DONE!

Remove your Switch-Art "FACE" in seconds!

It only takes a couple of seconds to remove a Switch-Art "Face" from the frame.

It really helps to use a pin or needle in the corner to gently tug it out.
